I am a recent homebuyer in Damascus. My wife and I are both extremely happy with the county, its actually cheaper and nicer then where we lived (we are both transplants from NJ)..

Coming from people who have been involved in the billing battle in jurisdictions that we both worked for and volunteered for in NJ, we have to urge you to pass legislation in favor of EMS billing. It is an estimated 14 million that the county is missing out on, and would ease the burden of increasing services while not increasing taxes, while at the same time not burdening the taxpayers, or people requesting service.

Please pass the EMS Billing Legislation.
