Grosvenor

Stream Restoration

Environmentally Friendly Landscapes
for Healthy Watersheds

Community Public Meeting

Tues, March 3rd 7:00 - 8:00 pm

In case of inclement weather, call 240-499-8531

Meet at Room A205, Tilden Middle School

Join Montgomery County's Department of Environmental Protection (MCDEP) to learn about the Grosvenor stream restoration project in your community. The proposed project will stabilize and enhance the existing stream shown to the right.

We will present conceptual stream restoration designs, and provide residents an opportunity to learn more about this project. You will be able to ask questions and provide feedback.

This project is part of the County's larger goal to reduce stormwater runoff, minimize pollution, promote infiltration, and restore stream conditions in the Rock Creek watershed, the Potomac River, and the Chesapeake Bay.
