MEMORANDUM

May 29, 2014

To: Craig Rice, President, Montgomery County Council

FROM: Timothy L. Firestine, Chief Administrative Officer Timothy L. Firestine

SUBJECT: Silver Spring Transit Center Remediation

The purpose of this letter is to provide an update on the status of the remediation solution for the Silver Spring Transit Center.

After a series of meetings between the County, WMATA, Parsons Brinckerhoff (PB), and KCE Structural Engineers (KCE), the decision has been made to proceed with the County engineer's (KCE) remediation approach. For purposes of design, permitting, and review of this remediation work, PB has agreed to KCE serving as Specialty Structural Engineer-of-Record.

This approach provides a solution that assures the public that the facility will be safe. It is anticipated that the remediation work will begin shortly and that the targeted completion date for the County's work on the project remains the end of the calendar year.

Please call me if you have any questions.
