ORGANIZATION PRESIDENT: [redacted]
(Name and Daytime Telephone Number)

PROJECT DIRECTOR: [redacted]
(Name and Daytime Telephone Number)

[redacted]
(Street Address, City, State, Zip)

ASSOCIATION FEDERAL TAXPAYER ID OR SOCIAL SECURITY NUMBER # (If check is payable to the association list a Taxpayer ID No.; If check is payable to an individual representing the association list a SSN): Tax ID #[redacted]

PROJECT TO BE INITIATED: Fall 2007 ___ Spring 2008 _x_

DESCRIPTION OF PROJECT *(Including level of direct community involvement)*:

Please see attached

SPECIFIC LOCATION OF PROJECT: (Attach map sketch): the east entrance to Milton M. Kaufmann park at intersection of Aspenwood Lane & Wightman Road (Map Attached)

COST OF PROJECT:

1.	Labor - (Volunteer) Hours x $5.50 per hour: *(Not to exceed 20% of #2, # 3, # 4 costs)*	$100.00
2.	Materials:	$900.00
3.	Equipment rental:	
4.	Miscellaneous:	

TOTAL PROJECT COST: $1000.00

CHECKS WILL BE MADE PAYABLE TO SPONSORING ORGANIZATION OR INDIVIDUAL REPRESENTATIVE.

ESTIMATED COMPLETION DATE: May31, 2008

ATTACH (1) ITEMIZED LIST OF COSTS AND ANY NECESSARY PERMITS SUCH AS BUILDING, SEDIMENT, APPROVAL OF PROPERTY OWNERS, ETC.
(2) COMMUNITY PLAN FOR CONTINUED MAINTENANCE OF PROJECT.
NOTE: INCOMPLETE INFORMATION WILL CAUSE DELAYS.

I have read, understood, and will abide by the guidelines of this application.

SIGNATURE OF PRESIDENT:

RETURN THE APPLICATION TO: Keep Montgomery County Beautiful, Department of Public Works and Transportation, Director's Office, 101 Monroe Street, 10th Floor, Rockville, MD 20850.

How did you hear about this grant? press release

DESCRIPTION OF PROJECT:

In the fall of 2007, local community members of the North Village Homes Corporation first suggested to the Montgomery Village Foundation Committee on the Environment that improvements be made to the Milton M. Kaufmann Park east entrance area that borders property owned by NVHC. Residents were concerned that the plastic construction fencing put in place to help protect the newly established reforestation zone was a detriment to the nearby landscaping and well-maintained appearance. Based on the recommendation of the COE, MVF staff made plans to improve the appearance to this highly visible area of the newly opened park. As the attached planting plans indicate, the goal of this project is to provide a buffer to the reforestation zone and to make the area more attractive to park users, residents, and passers-by alike. MVF plans to plant a total of 50 native shrubs to keep the area colorful year-round and provide a buffer from the well-maintained roadside to the natural reforestation zone growing behind. All of the planting will be done on MVF property within the boundaries of the park. Once planting is completed, the plastic fencing will be removed. Four different species will be planted including: serviceberry, winterberry, elderberry, and rhododendron. MVF plans to purchase all plant materials through the MD DNR Forest Service Tree-Mendous Program at reduced cost. Volunteers from the local group Friends of Kaufmann Park plan on assisting MVF Department of Landscaping and Public Works staff with the initial planting as well as some of the continuing remedial maintenance of the area. The finished planting bed will be added to the regular maintenance schedule of other MVF planting areas which includes annual mulching in the spring, monthly weed removal through the growing season, and watering twice per week through the hot summer months. MVF anticipates the project will be completed by the end of May.

COST OF PROJECT:

Labor - 18 hours x $5.50 = $99/$100
Materials - 50 shrubs x $17 each = $850
mulch 2 cubic yards x $25/yd. = $50
Total Project Cost - $1,000.00
