Dear Council President Floreen,

It was nice meeting you and listening to your inspiring words at MCAEL's "Celebration of Adult English Literacy" on June 22, at the home of Synthia and George Dang

I am affiliated with Linkages To Learning, teaching English to the Parents of Highland Elementary School. As my Highland parents become more proficient in English, they are better able to understand our culture, have better job opportunities, understand our school system, and support their children's education. The parents who take our English classes are a vital part of the workforce in our county. Montgomery County is a vibrant community and a wonderful place to live.

Thank you again for continuing to support MCAEL and their quest to promote Adult English Literacy in Montgomery County.
