DUMPSTER INSPECTIONS

After permit issuance, and 48 hours prior to dumpster placement, the permittee must contact the DPS ROW Inspector **listed on the permit** to schedule an inspection. The permit requires a minimum of three inspections:

- Pre-construction
- Placement of traffic control measures and installation of equipment
- Final - be sure to arrange for this final inspection. Once passed, the process for the bond release will begin.

For the permit to be considered finalized and the bond returned, a final inspection must be made.
