July 28, 2016

TO: Planning, Housing and Economic Development Committee

FROM: Amanda Mihill, Legislative Attorney *A. Mihill*

SUBJECT: **Worksession:** Bill 25-16, Housing and Building Maintenance Standards – Neighborhood Action Team

Expedited Bill 25-16, Housing and Building Maintenance Standards – Neighborhood Action Team, sponsored by Lead Sponsors Councilmembers Leventhal and Navarro and Co-Sponsors Councilmembers Berliner and Elrich, was introduced on June 21, 2016. A public hearing was held on July 12.

Bill 25-16 would require the Executive to create a Neighborhood Action Team and specify the duties and membership of the Neighborhood Action Team. A memorandum from the Lead Sponsors with additional background material is on ©5.

At the July 12 public hearing, the Council heard from 3 speakers supporting Bill 25-16 (©13-17). The Council has also heard from residents questioning the effectiveness of the Neighborhood Action Team as it was used in Connecticut Avenue Estates (©18-21).

Council staff recommendation: enact Bill 25-16. By formalizing the Neighborhood Action Team in legislation, the sponsors hope to provide community resources to residents county-wide to evaluate problem areas in communities and establish a plan to address issues of blight.

Ch. _____, Laws of Mont. Co. _____

COUNTY COUNCIL FOR MONTGOMERY COUNTY, MARYLAND

Lead Sponsors: Councilmember Leventhal and Navarro
Co-Sponsors: Councilmembers Berliner and Elrich

AN ACT to:

- (1) require the Executive to create a Neighborhood Action Team;
- (2) specify the duties and membership of the Neighborhood Action Team; and
- (3) generally amend County laws related to housing and building maintenance standards.

By adding

Montgomery County Code
Chapter 26, Housing and Building Maintenance Standards
Section 26-19

Boldface	<i>Heading or defined term.</i>
<u>Underlining</u>	<i>Added to existing law by original bill.</i>
[Single boldface brackets]	<i>Deleted from existing law by original bill.</i>
<u>Double underlining</u>	<i>Added by amendment.</i>
[[Double boldface brackets]]	<i>Deleted from existing law or the bill by amendment.</i>
* * *	<i>Existing law unaffected by bill.</i>

The County Council for Montgomery County, Maryland approves the following Act:

1 **Sec. 1. Section 26-19 is added as follows:**

2 **26-19. Neighborhood Action Team**

3 (a) Creation. The Executive must create a Neighborhood Action Team to
4 address visual blight and other quality of life issues in the County.

5 (b) Membership.

6 (1) The Neighborhood Action Team must include representatives
7 from:

8 (A) the Department of Transportation;

9 (B) the Department of Housing and Community Affairs;

10 (C) the Department of Permitting Services;

11 (D) the Department of Environmental Protection;

12 (E) the Police Department; and

13 (F) any other representative the Regional Services Center
14 Director or the Executive finds necessary.

15 (2) By September 1 of each year, the Executive must submit the
16 names and position titles of the members of the Neighborhood
17 Action Team to the Council.

18 (c) Duties. The Neighborhood Action Team must convene at the request of
19 any Regional Services Center Director or other individual designated by
20 the Executive. After convening, the Neighborhood Action Team must
21 create a plan with recommended actions to address blight and quality of
22 life issues in any affected community. Recommendations may include
23 increasing enforcement of violations of County laws related to housing
24 maintenance standards, parking, and solid waste disposal.

25 (d) Report. By December 1, 2017 and each December 1 thereafter, the
26 Executive must submit a report to the Council that includes activities,

27 accomplishments, plans, and objectives of the Neighborhood Action
28 Team.

LEGISLATIVE REQUEST REPORT

Bill 25-16

Housing and Building Maintenance Standards – Neighborhood Action Team

DESCRIPTION: Bill 25-16 would require the Executive to create a Neighborhood Action Team and specify the duties and membership of the Neighborhood Action Team.

PROBLEM: There has been an informal team meeting regarding these issues, but County residents would benefit from a team more formally established.

GOALS AND OBJECTIVES: To address blight and quality of life issues.

COORDINATION: Departments of Transportation, Housing and Community Affairs, Permitting Services, and Environmental Protection; the Police Department; Regional Services Centers

FISCAL IMPACT: To be requested

ECONOMIC IMPACT: To be requested

EVALUATION: To be researched.

EXPERIENCE ELSEWHERE: To be researched.

SOURCE OF INFORMATION: Amanda Mihill, Legislative Attorney, 240-777-7815

APPLICATION WITHIN MUNICIPALITIES: To be researched.

PENALTIES: N/A

MONTGOMERY COUNTY COUNCIL
ROCKVILLE, MARYLAND

MEMORANDUM

TO: Councilmembers

FROM: George Leventhal, Councilmember *George Leventhal*
Nancy Navarro, Councilmember *NN*

DATE: June 15, 2016

SUBJECT: Creating an interdepartmental Neighborhood Action Team to address blight and quality of life issues in Montgomery County.

In dual memoranda dated June 30, 2014 and July 9, 2014, we detailed important steps the county could take to begin to address issues of blight in and around the community of Connecticut Avenue Estates in Wheaton. Both memoranda called for an increased effort in county agency coordination to address issues of targeted code enforcement, overnight parking and illegal dumping enforcement and penalties. We sought participation from the Department of Housing and Community Affairs (DHCA), the Department of Permitting Services (DPS), the Department of Environmental Protection (DEP), the Montgomery County Police Department (MCPD) and the Department of Transportation (DOT).

While we are well aware that a working group, with members from these various departments, has been meeting on an informal basis about these issues, we believe it is vitally important that there be an accurate record of potential findings, new public education initiatives, and best practices moving forward. We believe this working group will be able to provide valuable community resources to residents, not just in the neighborhood of Connecticut Avenue Estates, but county-wide. Directors of each of the Regional Services Centers (RSC) would be able to call upon the newly established Neighborhood Action Team to evaluate problem areas in communities and to quickly establish a workable, time limited plan to address issues of blight that negatively affect residents' quality of life.

To that end, we are soliciting your support for the attached legislation, which we will introduce on Tuesday, to create an official, permanent Neighborhood Action Team. We believe this is an important first step in providing residents with a unified and uniformed response on issue of blight. We look forward to working with you on this issue.

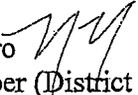

MONTGOMERY COUNTY COUNCIL
ROCKVILLE, MARYLAND

NANCY NAVARRO
COUNCILMEMBER, DISTRICT 4

MEMORANDUM

June 30, 2014

TO: Councilmembers
Isiah Leggett, County Executive

FROM: Nancy Navarro 
Councilmember (District 4)

SUBJECT: Community Solutions: Neighborhood Revitalization Enhancement Initiative

On April 25, 2014, I sent a memo (attached) to the Planning, Housing and Economic Development Committee (PHED) requesting targeted funding through a grant administered by the Department of Housing and Community Affairs (DHCA) for community building activities in District 4. Specifically, I requested \$120,000 for Montgomery Housing Partnership (MHP) to continue their excellent work in Glenmont (\$100,000) and for them to begin working in Connecticut Avenue Estates (\$20,000). The Connecticut Avenue Estates Civic Association sent a letter (attached), also dated April 25, 2014, in support of this funding. I also requested \$127,350 for Impact Silver Spring for work in the following areas:

- \$32,350 for Bel Pre;
- \$60,000 for Wheaton; and
- \$35,000 for Connecticut Avenue Estates in partnership with MHP.

I requested this funding because of the phenomenal track record MHP and Impact Silver Spring have in neighborhood building and community development activities throughout the County. I chose these areas because of the outreach activities my office has been doing with a broad range of residents who had requested these initiatives. These organizations have a history of engaging community members who do not traditionally attend civic association meetings or participate in community events. I have attached a letter from the Bluehill Neighborhood Opportunity Circle, a group representing close to 30 residents who live in the Connecticut Avenue Estates neighborhood who are interested in continuing their work with Impact Silver Spring.

It has recently come to my attention that a small group of concerned residents in three neighborhoods have expressed opposition to these DHCA contracts to nonprofits. I have met with these individuals and they expressed a desire that the County Government focus resources exclusively on enforcement of housing, permitting, parking, and solid waste code violations. After meeting with these individuals, touring their neighborhoods with them, and reviewing the

materials they provided to me, I am sympathetic to their desire for enhanced enforcement. However, I do not believe this is an "either/or" proposition. I strongly oppose any redirection of allocated funds because this sells the community short. Instead, I am in favor of an "and/both" approach that emphasizes positive community building and education activities, enhancing existing code enforcement, and developing new policy initiatives that will provide lasting solutions to the community issues I have observed firsthand.

There is no doubt that the Mid- and East-County has the vast majority of housing and code enforcement complaints in the County. MC311 data, compiled by the Office of Legislative Oversight (OLO) (attached), show that over the past two years, District 4 and District 5 have received 2,311 and 2,339 housing complaints, respectively. The next highest number of housing complaints is District 2 at 1,772. For code enforcement requests, District 4 and District 5 have received 4,224 and 4,256, respectively, over the past two years. District 2 comes in third, at 3,151 requests. I have attached the complete analysis by OLO. My view is that these numbers reflect symptoms of a larger societal issue that cannot be addressed through enforcement alone. An "enforcement only" approach would only serve to ostracize residents who are not aware of County laws and negatively divide neighborhoods. My belief is that government's role should be to bring people together by being welcoming to all people and educating those who are not aware of what is expected.

The comprehensive approach outlined below can serve as a roadmap for how I believe we can address community issues, not only in District 4, but throughout Montgomery County.

Community Development and Education

Developing an engaged community and educating residents about their rights and responsibilities as good neighbors is the cornerstone in solving all of the issues I have observed in many District 4 neighborhoods. County Government alone cannot facilitate the community building exercises that are needed to solve neighborhood problems. That is why our departments (Health and Human Services (HHS), DHCA, and others) contract with nonprofit organizations to do much of this important work. Working with and strengthening existing civic associations and neighborhood structures are the core work of organizations such as MHP and Impact Silver Spring. They also serve as a liaison between neighborhoods and government entities. These groups listen to the concerns of residents and structure their activities based on those needs. For example, in neighborhoods where persistent crime is an issue, these groups can help organize "neighborhood watch" programs. Where there are housing code issues, they can help educate residents about how to be better neighbors. This work is critical to addressing the underlying issues in many neighborhoods.

Before the Council begins the FY16 Operating Budget process, I encourage DHCA to create an inventory of community-based nonprofits doing this type of work in the County. DHCA should also develop a quantitative assessment to measure the results of these organizations and objective criteria for determining what areas of the County would benefit most from these initiatives.

Targeted Code Enforcement

Residents often use the term "code enforcement" as a blanket phrase when describing quality of life issues in a neighborhood. Residents are sometimes frustrated when reporting these issues to MC311 or Council offices because the County department responding to a complaint depends on the nature of the complaint itself. Whether the request for service is directed to the

Montgomery County Police Department (MCPD), DHCA, Department of Permitting Services (DPS), Department of Environmental Protection (DEP), Department of Transportation (DOT), or an outside agency, such as the Washington Suburban Sanitary Commission (WSSC) or Maryland-National Capital Park and Planning Commission (M-NCPPC), the constituent's goal is getting the problem resolved.

I propose creating an interdepartmental unit comprised of officials from across County Government to focus on quality of life issues in targeted neighborhoods. This unit would have at least one staff member from the Code Enforcement Section of DHCA, DPS, DEP, MCPD, and DOT. They would work as a team to increase proactive enforcement of housing code, parking, permitting, illegal dumping and other quality-of-life violations in areas identified by the County Executive as having the greatest need. This unit would help mitigate the "stove piping" or "silo" mentality that frustrates residents about government. The unit will be nimble enough to work in one or more high need area at a time and will complement—not replace—existing enforcement activities. I encourage the County Executive to recommend adequate funding in the FY16 Operating Budget, or sooner through a supplemental appropriation, to implement this proposal.

Overnight Parking

One of the most pervasive issues in several neighborhoods around Wheaton is the lack of overnight parking for residents in front of their homes. I observed orange construction cones in front of several homes in an effort to "reserve" street parking spaces. Under the County's current residential parking program, streets can "opt-in" to the program requiring permits during daytime hours. The purpose of this program is to prevent commuters taking public transit from parking on residential streets during the day. In neighborhoods where most homes do not have driveways and are not near transit, parking shortages are most prevalent in the evening and overnight hours.

In the coming weeks, I plan on working closely with Montgomery County Department of Transportation (DOT) to explore ways of expanding the County's residential parking permit program. I believe the program should include an evening/overnight component in neighborhoods with single-family homes that do not have driveways. In the fall, I plan to introduce legislation that reflects these discussions with DOT and provides some relief for residents who cannot find parking near their homes in the evening.

Illegal Dumping Enforcement and Penalties

Illegal dumping is a serious quality of life issue for residents. The Department of Environmental Protection (DEP) does a very good job dealing with illegal dumping on a complaint-driven basis. However, the County needs to employ strategies that prevents and deters illegal dumping in the first place.

First, I propose a targeted illegal dumping public education campaign in high-incident neighborhoods. This campaign should be administered by DEP in conjunction with the County's Public Information Office (PIO). I encourage the County Executive to recommend funds in the FY16 Operating Budget to fund a broad-based, multilingual outreach effort utilizing various forms of media—including print advertising, radio, television and the internet.

Second, the County should aggressively pursue individuals who are dumping illegally in neighborhoods. Civic Associations, along with nonprofit organizations working in the

community, should form neighborhood watch groups to monitor dumping and report incidents to the Police in real time. MCPD should also dedicate resources to monitoring areas where illegal dumping is a chronic problem and actively engage in "sting" activities to identify individuals engaged in this behavior.

Finally, this fall I will introduce legislation that increases the minimum fine for illegal dumping in Montgomery County. Currently, the minimum fine for first-time offenders is \$500 and the maximum is \$1,000. My legislation will increase the minimum to \$750. Currently, the County is prohibited by State Law to increase the maximum fine. However, I will request that our State Delegation introduce legislation giving Montgomery County the authority to adopt laws that are consistent with the higher penalties for illegal dumping found in the Maryland Criminal Code. Currently, only Prince George's County and Calvert County have this authority under State Law.

MONTGOMERY COUNTY COUNCIL
ROCKVILLE, MARYLAND

GEORGE LEVENTHAL
COUNCILMEMBER
AT-LARGE

MEMORANDUM

July 9, 2014

TO: Nancy Navarro

FROM: George Leventhal *George Leventhal*

SUBJECT: RE: Community Solution – Neighborhood Revitalization Enhancement Initiative

Thank you for your June 30 memorandum outlining proposals for dealing with parking, blight and other issues affecting Connecticut Avenue Estates and the surrounding Wheaton neighborhood. Your leadership on these issues is helping to improve the quality of life for these residents. You have engaged members of the community who had not had the opportunity to have their views presented. As you know, residents have sought assistance from at-large councilmembers in addition to their district member. While I largely agree with most of the points in your memorandum, I wanted to share some thoughts of my own.

With regard to community development and education, I understand that non-profit service providers may sometimes be better equipped than county government to work with diverse communities in a culturally competent way. As you will recall, during our budget discussions, I supported funding for Montgomery Housing Partnership (MHP) and Impact Silver Spring, but I also expressed a desire to see countywide criteria whereby contracts with these or other organizations for community development will be executed in the future. In addition, it is very important that we identify right away the deliverables we can expect from these contracts, and how they will be monitored.

Regarding targeted code enforcement, I believe it is not necessary to reinvent the wheel. The county already seeks a strong presence in communities through our Regional Services Centers (RSC). As you well know, these offices suffered tremendous cuts to personnel during the recession, turning them into one man/woman shops staffed only by the

directors. Instead of creating a new position or office, I suggest that we work in the FY2016 budget to address staffing at our Regional Services Centers, realizing that the directors of these centers currently possess the knowledge of how to navigate multiple county departments. In the meantime, the county should launch a coordinated effort with existing staff from the appropriate departments to address and remediate the issues now.

I wholeheartedly agree with your points regarding overnight parking, and I look forward to working closely with you on the implementation of any changes to the county Department of Transportation's (DOT) policy regarding evening residential parking.

The issue of illegal dumping and enforcement will be one of the most important issues we face moving forward. While I agree the county can and should do more multilingual outreach, I also believe that the county needs to take a firm hand with individuals who violate county law. While an increase to the minimum fine amount would seem to be a deterrent, any fine amount is useless until an actual fine is issued. To that end, I would suggest a mandatory fine for repeat offenders.

Please understand that I recognize your role as the district councilmember and am eager to work collaboratively with you, other council colleagues and executive branch officials to show a united front and yield positive results for our residents.

July 12, 2016

The Honorable Nancy Floreen
President, Montgomery County Council
Montgomery County Council
100 Maryland Avenue
Rockville, MD 20850

Dear Council President Floreen:

On behalf of Montgomery Housing Partnership (MHP), please allow me to take this opportunity to express support for Bill 25-16 Housing and Building Maintenance Standards – Neighborhood Action Team.

MHP is honored to be a partner of the County's, and specifically the Department of Housing and Community Development's Focused Neighborhood Assistance program. Through this partnership we have worked with the County to address quality of life issues in Gaithersburg, Germantown, Glenmont, Bel Pre, Long Branch, and the North Wheaton communities of Connecticut Avenue Estates, Wheaton Hills, and Glenmont Forest. We have developed butterfly gardens, hosted National Nights Out and Block Parties, supported neighborhood associations, removed tons of trash, installed murals, provided new signage for businesses, and renovated vacant and abandoned homes.

One common denominator through all of these communities and initiatives has been the critical nature of collaboration and communication between County agencies, nonprofit partners, and community residents. Historically, this has mostly happened on an informal, ad-hoc nature. For example, currently there is a group of representatives from the departments outlined in the bill that meets, at a minimum, on a quarterly basis to move initiatives forward to support the North Wheaton area. We have worked together to remove illegal cones from the street, analyze opportunities to improve cleanliness, specifically through waste disposal challenges, and surveyed over 500 households on vehicular and

13

pedestrian safety issues. This bill will provide structure to this process, enabling us to better establish best practices and resources to bring to other communities throughout the County.

In addition to the Action Team proposed in this legislation, we would like you to consider, in those neighborhoods where a full action plan is not called for by the Service Center Director, in developing a mechanism where residents can raise an issue for consideration of cross-departmental coordination. Nothing is more frustrating for a resident than having their issue transferred around from department to department. One option might be cross-departmental groups, set up by District that meet on a regular basis where issues and complaints could be referred.

One caveat I will note, much of our previous successes in spurring investment and removing blight can be attributed to the County's ability to leverage Community Development Block Grant Funds, and other program funds to support the infrastructure changes necessary to remove the blighting factors. This is in addition to the private funding nonprofit partners are able to bring to the table. Without supportive funding any Neighborhood Action Team will be limited in the change efforts they are able to implement. It is still critical to organize, and plan, but we must be cognitive of the limitations of the Neighborhood Action Team's role as we move forward in this process.

Thank you for always looking out for all residents in Montgomery County. We look forward to continuing to work with the County to enhance the quality of life for all Montgomery County residents. Please feel free to reach out to me with any follow-up at rgoldman@mhpartners.org or 301-812-4114.

Sincerely,

Robert A. Goldman, Esq.
President

Testimony of Andrew Platt in Support of Bill 25-16
“Neighborhood Action Teams”

My name is Andrew Platt, I am here today to speak in support of Bill 25-16, the “Neighborhood Action Team.” I have lived in Wheaton for the last 16 years and experienced the visual blight and quality of life issues this bill seeks to address first hand.

The current 311 system is inadequate to address the problems that exist in my neighborhood as a single property can have violations that span across multiple agencies. This requires that a separate 311 report be filed for each violation and there is little coordination between agencies.

For example, at 3006 Kingswell there is a homeowner led construction project that has been going on for 4 years now, resulting in hazardous unfinished work, sediment flows into the street, trash across the property, and vehicles blocking the sidewalk. Under the current system I have to file complaints about each of these issues separately with Permits, DEP, DHCA, and the Police. While each agency may come out, on their own timeline, to address their problem, the lack of a holistic solution enables the property owner to continue to be an eyesore in the neighborhood. Or you can look at 12022 Judson Road, which has been running an unlicensed auto repair company for the past 13 years. When a complaint is called into DHCA, vehicles are moved onto the street with fake plates, when the police are called about the junked cars in the street, they are moved back onto the property. Without the coordination of multiple agencies through a Neighborhood Action Team, resolution to these quality of life issues is handled in a “siloed” manner on the timeline of the specific agency involved—which can be over 90 days in some cases.

In addition to the coordination of targeted enforcement efforts, having the Neighborhood Action Team working in coordination with local neighborhood associations would be of great assistance in both outreach and in enforcement “sweeps” of specific neighborhoods. I know that the Connecticut Avenue Estates Neighborhood Association and the Glenmont Forest Neighbors Civic Association have conducted walk-throughs of their neighborhoods with members of this Council. As you have seen, there are properties that have violations that stretch across multiple agencies. If the same sort of walk-through could be conducted with the Neighborhood Action Team, enforcement could be coordinated on the spot and the blight problem mitigated.

To recap, Bill 25-16 and the Neighborhood Action Team present a wonderful opportunity for the Council to address a real and substantial quality of life issue impacting my neighborhood.

July 12, 2016

Good Afternoon Council President Floreen and Members of the County Council:

Over the last four years, I have worked closely with countless residents in Wheaton North including, the residents of Connecticut Avenue Estates, on quality of life issues that affect our community. I wholeheartedly agree with Councilmember George Leventhal's views on the circumstances impacting my neighborhood. We understand how issues of blight can have serious and detrimental effects on a community's quality of life, property values, and morale. Bill 25-16, the Housing and Building Maintenance Standards – Neighborhood Action Team, would enable a team tasked with evaluating deteriorating areas in communities to quickly establish workable, timely action plans to address issues of blight. In CAENA's own organizational efforts, it has been very difficult navigating multiple agencies and their respective processes. The result is a very frustrating, time-consuming experience when trying to address pertinent issues in a fragmented manner. I believe this legislation will go a long way in coordinating County resources to better assist County residents experiencing similar issues.

Bill 25-16 is an equitable way to spread resources to every neighborhood in Montgomery County. Furthermore, this bill will formalize existing coordinated interagency efforts occurring informally to address quality of life issues. Passage and implementation of this bill would also instill hope and aspiration for future residents who will seek out *all areas* of the County to raise a family. The enactment of this bill will symbolize the County's embrace and adaptation to cultural shifts and it's reception to and support of the type of growth and maintenance we see in specific areas of the County and want *throughout the entire* County.

Not only can this bill be regarded as a mechanism for change, but the implications of its enactment are profound and necessary. The profundity of this bill lies in its potential to serve as a model for other regional Counties, and potentially nationally. The type of action-oriented, solution-driven principles embedded in this legislation is needed in our communities now. People deserve a responsive government and one that leads effectively, especially given the current social climate. People across the nation are in need of leadership, solutions, and measurable change. As a County perfectly positioned in the backyard of our nation's capital, this is a unique opportunity for the County Council assume a leadership role and send a clear message to every resident in the County that our local government will assure their living conditions are important and a priority. Residents need to know they are cared for and policies are in place to offer them the best possible advantages. Just as the color of our skin should not determine access to opportunities or success, nor should a zip code determine the success of a neighborhood. We need policies to foster healthy and sustainable living conditions. This nation is experiencing turmoil from difficult issues that have long been unaddressed; you have the

distinctive opportunity to address specific issues before they become too difficult and remind every resident conscious of our current times that we live in a great County willing and capable of fostering a more perfect community. Thank you for your time and consideration. I hope you all have a great day and productive week.

Nichelle Dowell, President

 Subject: Bill 25-16

Councilmember Leventhal,

I have been before the County Council many times to testify against legislation that has destroyed our quality of life and decimated our sense of pride. I have witness my neighbors being called racist, because they were concerned about blight and the impact it would have on their property values. I've sat in meetings with County Representatives from the various departments, as they came up with every excuse as to why it took them seven years to finally site a house for being an illegal rooming house. I've sat in meetings at Mid-County and listened as DCHS, DPS and DEP justified why they continued to look the other way, as they allow our communities to become slums. I've walked up and down Connecticut Avenue Estates with County Council members to identify problem areas, only to find out that the Council had chosen to give money to MHP and Impact Silver Spring to address issues of blight in the neighborhood.

Now, you and Councilmember Navarro have had an epiphany, issues of blight can have serious and deleterious effects on a community's quality of life, property value and morale. The community has been saying this and documenting the effects for years. If you are truly interested in combating the destructive effects of blight in our communities, I would suggest:

- Starting with the Department of Housing and Community Affairs (DHCA), the Department of Permitting Services (DPS), the Department of Transportation, the Department of Environmental Protection, they must start enforcing the laws that are on the books.
- In our neighborhood, we have several illegal rooming houses, that have been identified as rooming house, but they are not registered. All rooming houses and accessory apts. must be registered!
- We have legal rooming houses that have not been inspected in years, if ever. While in Takoma Park,

18

Rooming homes and accessory apts. are inspected annually - we must have the same service.

- We need the County Council to revisit the commercial vehicle's law - even these small commercial vehicles are wrecking havoc on the streets we live on.

- We need the County Council to address Accessory Apts. and overcrowded living conditions, which leads to an enormous amount of trash, which leads to a ripe feeding ground for rodents, unsafe living conditions and parking issues.

- Affordable housing!!!!

Everything I've listed has been said a million times, it doesn't take rocket scientist to figure out there's a direct correlation between the lack of code enforcement and public squalor. Simply stated, the legislation as it is, is nothing more than another level bureaucracy, which will accomplish nothing if the aforementioned list is not implemented.

Sincerely,

Kimblyn Persaud
President, Wheaton Regional Park Neighborhood Association

Subject: New neighborhood bill - same song, old story

To combat the issue of blight we need the Department of Housing and Community Affairs (DHCA), the Department of Permitting Services (DPS), the Department of Transportation, the Department of Environmental Protection to enforce the laws that are on the books.

- In our neighborhood, we have several illegal rooming houses, that have been identified as rooming house, but they are not registered. All rooming houses and accessory apts. must be registered.
- We have legal rooming houses that have not been inspected in years, if ever. While in Takoma Park, Rooming homes and accessory apts. are inspected annually - we must have the same service.
- We need the County Council to revisit the commercial vehicle's law - even these small commercial vehicles are wrecking havoc on our quality of life. If you could take pictures of all the cars parked on the street, that would be helpful.
- We need the County Council to address Accessory Apts. and overcrowded living conditions, which create a burden on County services, and creates huge amounts of trash, which creates rodents. Not to mention, unsafe living conditions and parking issues.
- Property Taxes have already increased, how are they planning on paying for these services?

A similar model to bill 25-16 was used to help fight blight in the Connecticut Ave. Estates area.....it failed and now, Councilmember Navarro and Leventhal have come up with this legislation. Unless the County Council address these issues first, bill 25-16 is just another level of bureaucracy with unyielding results that we will have to pay for.

Subject: Bill 25-16

Dear Council Members,

As a longtime resident of Wheaton, I am writing in opposition to Bill 25-16. While we would like much of Wheaton to be cleaned up, another committee is not the solution. Suitable laws are not in the books, and have only to be enforced. If Wheaton were given resources equivalent to other areas of the county in terms of enforcement, we would not have much of the blight we have today.

For example,

- In our neighborhood, we have several illegal rooming houses, that have been identified as rooming house, but they are not registered. All rooming houses and accessory apts. must be registered.
- We have legal rooming houses that have not been inspected in years, if ever. While in Takoma Park, Rooming homes and accessory apts. are inspected annually - we must have the same service.
- We need the County Council to revisit the commercial vehicle's law - even these small commercial vehicles are wrecking havoc on our quality of life.
- We need the County Council to address Accessory Apts. and overcrowded living conditions, which create a burden on County services, and creates huge amounts of trash, which creates rodents, not to mention unsafe living conditions and parking issues.

A similar model to bill 25-16 was used to help fight blight in the Connecticut Ave. Estates area.....it failed. Unless the County Council address these issues first, bill 25-16 is just another level of bureaucracy with unyielding results that we will have to pay for.

Thank you for for your time,
