

REVISED Public Notice

MD 121 over I-270 Structural Steel Erection Starts Monday August 8

Our subcontractor, Belfast Bridge and Restoration, and their subcontractor, High Steel Structures, will be placing structural steel on MD 121 over I-270 beginning Monday Night August 8 and will take approximately 4 work nights. Double lane closures on 270 will begin at 9 pm and run thru 5 am each night. **From 12 midnight to 5 am, there will be intermittent total closures of I-270 for 15 minutes while the structural steel is placed over the roadway.** If inclement weather precludes us from beginning Monday, we will begin Tuesday night and continue Wednesday, Thursday, Sunday, Monday, and Tuesday nights until the work is complete. We will also have single lane closures on MD 121 at I-270 during the same time periods.

If you have any questions, please contact the project manager for Pleasants Construction, Matt Burdette at mb@pleasants.org or cell 240-372-3358.

Our traffic control manager, Ron Mahaney, can be reached at 240-499-6242

The onsite supervisor for Belfast Bridge and Restoration, Lloyd Miller, can be reached at 443-790-0591
