

2015/2016 Register of
Champion Trees
MONTGOMERY COUNTY, MARYLAND

Letter From Ike Leggett

Dear Friends,

I am honored to present the 2015-2016 Register of Champion Trees as Montgomery County ushers in a new era for trees.

This year, the County launched new programs and campaigns to plant more trees, to raise the general awareness of their benefits, and to enhance our County's efforts toward retention and long-term care of trees. These planting and awareness programs align perfectly with the Montgomery County Forestry Board's Champion Tree Program. Perhaps some of our newly planted trees are future champions!

As always, I encourage each of you to plant trees, tend them, get to know old ones, and cherish all the benefits they gift us.

Sincerely,

Isiah Leggett
County Executive

Dedication to Dr. Jim Coleman

Above: Dr. Jim Coleman, Forestry Board Member 2002 to 2014, Board Chair 2003-2007.

With admiration and appreciation, the Montgomery County Forestry Board dedicates this 2015-2016 Register of Champion Trees to the memory of our friend, Dr. James S. Coleman, who passed away May 16, 2014.

Dr. Jim Coleman enjoyed a prolific career as an organic chemist with both Los Alamos Scientific Laboratory at Los Alamos and with the Atomic Energy Commission here in the Washington area. After retiring in 1994, his lifelong love of the natural world led him to contribute his passion, experience and energy to many volunteer activities, including membership on the Montgomery County Forestry Board. Jim and his wife Peg's home at Pleasant Springs Farm in Boyds is home to the current Champion serviceberry (*Amelanchier arborea*) tree.

Jim joined the Forestry Board in 2002, and in 2003 he generously agreed to share his talent and dedication by serving as the Board Chair until 2007. Jim and Peg warmly welcomed Board members to their beautiful home and farm by hosting annual Forestry Board family picnics and pot luck luncheon meetings.

We mourn Jim's loss, thank him for his service to the Board and dedicate this Register to his memory. The Forestry Board has worked with Peg to plant a sugar maple (*Acer saccharum*) tree in Jim's memory at Pleasant Springs Farm.

On The Cover

Joe Howard, founder of the Montgomery County Champion Tree Program, is shown where he loves to be: leaning against a champion tree holding a piece of litter.

As Joe approaches each tree he measures, he greets it with a touch of his hand. He leaves each site cleaner than he found it by picking up litter along his way.

You too can visit this beautiful black oak (*Quercus velutina*) along the Woodland Trail at the C&O Canal National Park. Follow the yellow blaze: the black oak is on the west side of the trail when walking from the Anglers Inn Parking Area.

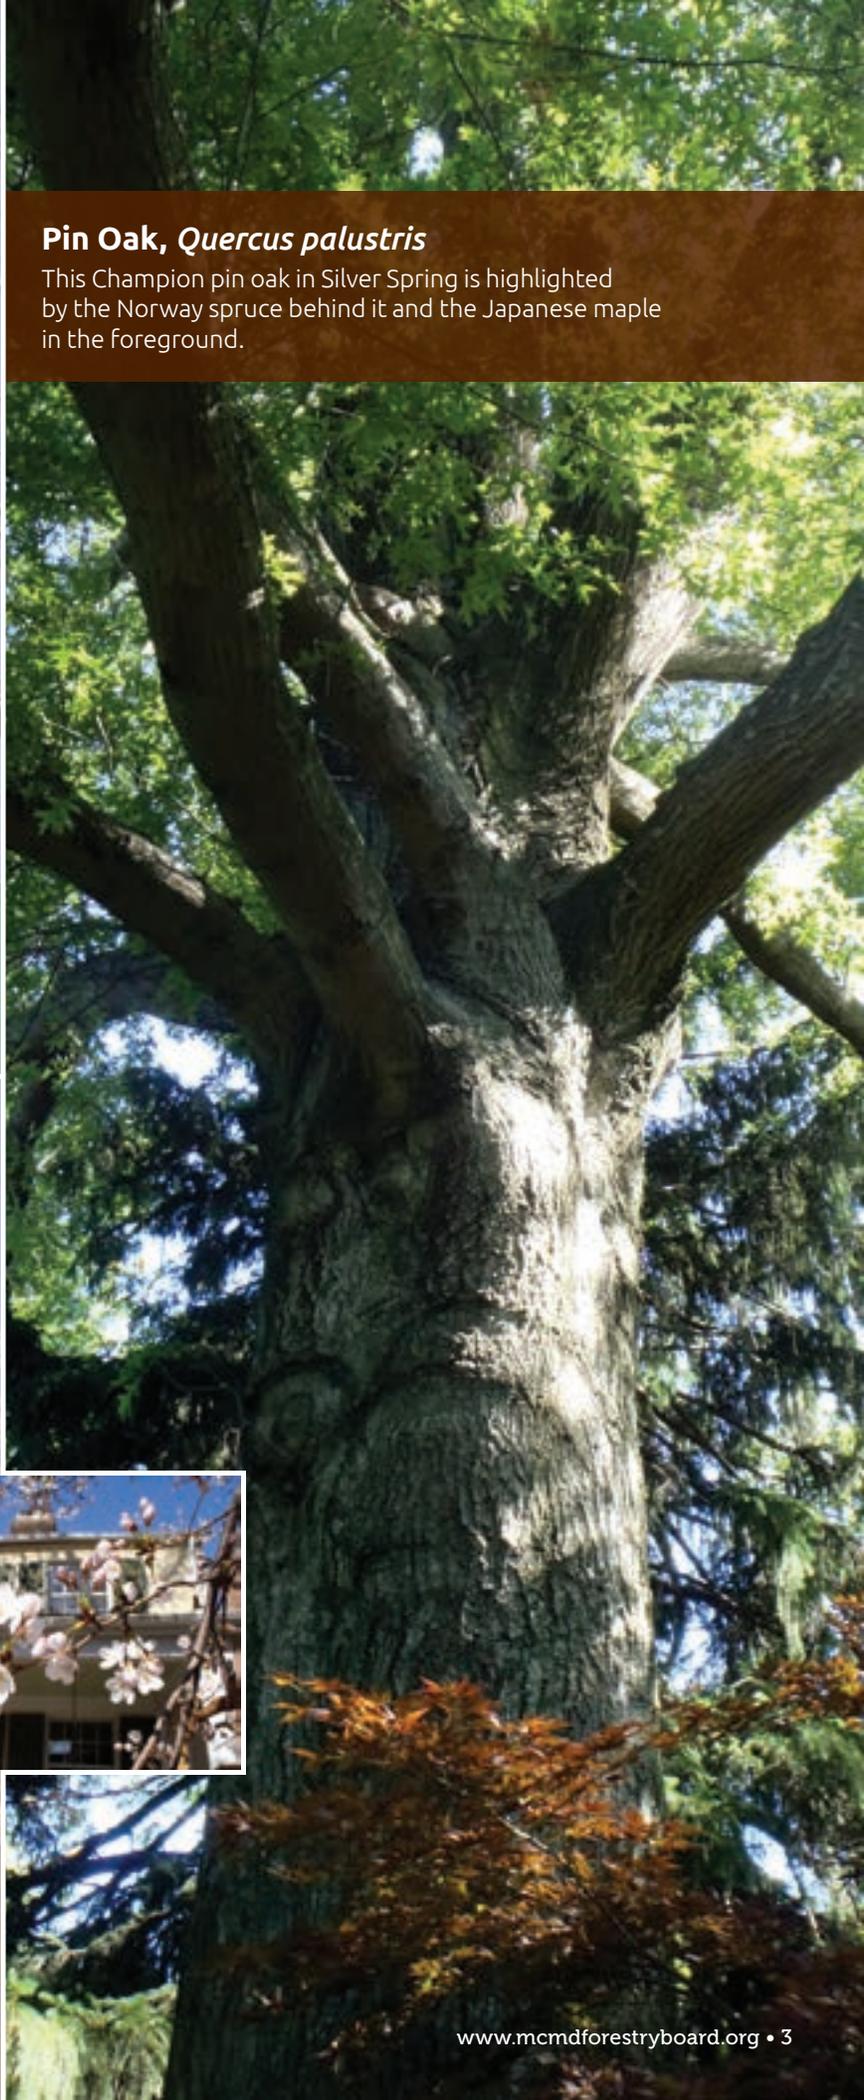

Persimmon, *Diospyrs virginiana*

The bark of persimmons is often described as chunks of charcoal or alligator skin. This makes it easy to identify. This Champion is on private property in Derwood.

Yoshino Cherry, *Prunus yeodoensis*

This Yoshino cherry in Bethesda reigned as Champion since the Champion Tree Program's inception in 1989. In the spring of 2015, the tree and the home behind it were cleared for redevelopment on the lot.

Pin Oak, *Quercus palustris*

This Champion pin oak in Silver Spring is highlighted by the Norway spruce behind it and the Japanese maple in the foreground.

Paper Birch, *Betula papyrifera*

This gorgeous paper birch was planted by Audry Anderson in 1960. Mrs. Anderson continues to love and care for this County and State Champion tree.

White Pine, *Pinus strobus*

This regal giant, the Champion white pine, dwarfs the Forestry Board members measuring it. White pines are known to be the largest species on the east coast, and this one stands in Olney Acres Park.

Boxelder, *Acer negundo* (below)

The graceful branching of this Champion boxelder maple tree hides a delightful surprise on its opposite side!

From tree houses to swings, this photo reminds us of the joy trees can bring to all ages.

**Mountain Laurel,
*Kalmia latifolia***

This mountain laurel is at McCrillis Gardens and was nominated by Mary Bradford, former Director of Parks. Several County Champions and the National Champion pawpaw also reside at McCrillis Gardens. The Gardens are owned and managed by Montgomery Parks and are open to the public. Go see these trees!

Chestnut Oak, *Quercus montana*

This year we rediscovered the records of this beautiful chestnut oak! It was on the State champion list in the early 1990's. Like many champion trees, it's growing in a cemetery.

VIEWING CHAMPION TREES

Champion Trees Easily Viewable in Montgomery Parks

Bethesda

White Oak (*Quercus alba*), famed Bicentennial Tree, the "Linden Oak" at the junction of Rockville Pike & Beach Drive.

Overcup Oak (*Quercus lyrata*), state champion at the corner of Beach Drive and Cedar Lane.

McCrillis Gardens, 6910 Greentree Road, home to the national champion pawpaw and several county champions including sweet bay magnolia, big leaf magnolia, Deodar cedar, Fringetree, and mountain laurel.

Flowering Dogwood (*Cornus florida*), on edge of parking area for Josiah Henson Special Park on 11420 Old Georgetown Road.

Dickerson

American Sycamore (*Platanus occidentalis*), largest known tree in Maryland, is in Dickerson Conservation Park between the C & O Canal and the Potomac River about 1/3-mile hike upstream from the parking area.

Cottonwood (*Populus deltoides*), state champion, about 100 ft. in front of sycamore toward the river.

Silver Maple (*Acer saccharinum*), at Lock 26 on the C & O Canal about 1/4-mile downstream from Dickerson Conservation Park parking area

Gaithersburg

English Elm (*Ulmus procera*), the "Goshen Elm", Maryland's Millennium Tree, is the world champion English elm and is located on Goshen Road and Rock Elm Way.

Nordmann Fir (*Abies nordmanniana*), next to the historic Bussard farm house at the Agricultural History Farm Park, 18400 Muncaster Road.

Olney

Eastern White Pine (*Pinus strobes*), in the middle of Olney Acres Park on Morningwood Drive.

Silver Spring

Yellowwood (*Cladrastis lutea*), along Sligo Creek Parkway opposite first parking area south of Wayne Avenue.

Sawtooth Oak (*Quercus accutissima*), on the west end of Nolte Park at the very end of Easley Street.

Wheaton

Osage Orange (*Maclura pomifera*), in Wheaton Regional Park at the rear of the parking lot for the Adventure Playground at the end of Shorefield Road.

Red Buckeye (*Aesculus pavia*) and Himalayan Pine (*Pinus wallichiana*), on the edge of the parking lot in front of the Conservatory for Brookside Gardens at 1500 Glenallen Avenue.

MONTGOMERY COUNTY FORESTRY BOARD

Established in 1943 to help landowners manage forestland, today's Maryland Forestry Boards promote the value of forests and trees in maintaining the health of the Chesapeake Bay and improving our urban and suburban environment.

- Montgomery County's dynamic and diverse Forestry Board
- Coordinates reforestation plantings at local schools
- Monitors and advises on proposed tree-related legislation
- Fully supports County high school students to attend the state-wide Natural Resources Career Camp held annually in western Maryland
- Publishes this bi-annual Register of Champion Trees
- Supports several student activities involving tree planting and care

Board Members

Holly Thomas, **Chair**
Montgomery Parks, MNCPPC

Linda Pepe, **Vice Chair**
County Resident Member, Barnesville

Dan Lewis, **Secretary**
Project Forester, Maryland Department of Natural Resources

Joli McCathran, **Treasurer**
Washington Grove

Carole Bergmann, *Montgomery Parks, MNCPPC*

Stan Fisher, *County Resident Member, Boyds*

Jim Harris, *Wood Acres Tree Specialists*

Joe Howard, *County Resident Member, Silver Spring*

Laurie Jenkins, *Montgomery County Public Schools*

Marty Kelly, *Kelly Landscaping*

Daniel Landry, *Pepco*

Laura Miller, *Montgomery County Department of Environmental Protection*

Wayne Noll, *City of Rockville*

David Plummer, *Montgomery Soil Conservation District*

Dave Honchalk, *Emeritus Member*

Forestry Board Members at their Annual Pot Luck luncheon meeting in 2015 in the Library of the Lathrop E. Smith Environmental Education Center. Clockwise from left: Jim Harris, Joe Howard, Joli McCathran, Marty Kelly, Laurie Jenkins, Dan Landry, David Plummer, Dan Lewis, Carole Bergmann, Dave Honchalk, James Eirdam (Maryland DNR Forest Service), Linda Pepe, Laura Miller, and Holly Thomas.

Thanks & Acknowledgements

The Forestry Board would like to express sincere gratitude to:

Pepco for their support of the Natural Resources Career Camp and school reforestation plantings,

Montgomery County Department of Environmental Protection which contributes considerable resources to maintain the champion tree database, and

MCPS Lathrop E. Smith Environmental Education Center which generously hosts the Board's meetings and provides administrative and logistic support.

The publication of this, the 2015-2016 Register of Champion Trees, has been financed in part with contributions of funds from the supporters listed below, and we extend sincere appreciation to each:

This project has been financed in part with funds from Heritage Montgomery and Montgomery County Government. Heritage Montgomery has recognized the importance of increasing our citizens' awareness of our significant and historic trees by awarding a Heritage Montgomery Mini-Grant to support the publication of the Register of Champion Trees.

This project has been financed in part with State Funds from the Maryland Heritage Areas Authority, an instrumentality of the State of Maryland. However, the contents and opinions do not necessarily reflect the views or policies of the Maryland Heritage Areas Authority.

The Maryland Forestry Foundation
(formerly the Maryland Forestry Boards Foundation)

The Montgomery County Departments of Environmental Protection and Economic Development-Agricultural Services

The Montgomery Soil Conservation District,

M-NCPPC Montgomery Parks oversees the inspection, maintenance, preservation and care of trees in more than 400 parks and over 36,000 acres of County parkland. Several of this year's champion trees are located in County Parks, see list of Champion Trees Easily Viewable in Montgomery Parks on page 20, including Maryland's largest known tree of any species, the 475-point American Sycamore located in the Dickerson Conservation Park.

Montgomery Parks continues to offer volunteer opportunities for Tree Stewards to care for champion and urban trees and for Weed Warriors to help control the continuing threat to our parkland forests from invasive species. To volunteer, contact www.montgomeryparks.org/team/.

bigtooth aspen, *Populus Grandidentata*

Not all champions are the biggest trees in the woods. The yellow leaves of this tall Champion native bigtooth aspen are spectacular. It's tucked away in Wheaton Regional Park.

You Can Nominate a Champion Tree

The Forestry Board invites you to nominate a tree for the champion and big tree list at any time. Forestry Board representatives measure nominated trees, and then keep track of the big trees by visiting and measuring them at least once every ten years.

If you think you've discovered a tree larger than the ones noted in this register or a tree species for which there is no champion, the Forestry Board welcomes your nomination.

Nominate online montgomerycountymd.gov/dep/Tree/champion-trees.html

Nominate by mail Photocopy this form, fill it out and send it to MD DNR Forest Service
17400 Annapolis Rock Road, Woodbine, MD 21797.

To learn more about champion trees, visit www.montgomerycountymd.gov/dep/Tree/champion-trees.html

HOW IS A TREE MEASURED?

Fred Besley devised the measuring system for Maryland in 1925 that would become standard for the national competition started by the American Forestry Association in 1940. In fact, Fred Besley provided the first official measurement of the former national champion Wye Oak.

To evaluate the relative size of a tree, the circumference of the trunk in inches (at 4.5 feet above the ground) and the height and crown spread in feet are added together to arrive at a number of points for each tree. This number is then used for comparison of tree sizes in each species. The formula is:

Circumference (inches) + height of tree (feet) + 25% of the average crown spread (feet) = Total Points.

If trees are within 5 points of each other, they are considered co-champions.
