# Franklin Knolls & Clifton Park *Green Streets*

Environmentally Friendly Landscapes  
for Healthy Watersheds

## Public Outreach Meeting Thurs, July 12th 6:30 - 8:30 pm

Montgomery Knolls Elementary School Cafeteria  
807 Daleview Drive, Silver Spring, MD 20902

Join Montgomery County's Department of Environmental Protection (MCDEP) to learn about proposed Green Streets practices such as rain gardens and bioretention gardens, to control stormwater in the Franklin Knolls and Clifton Park right of way areas.

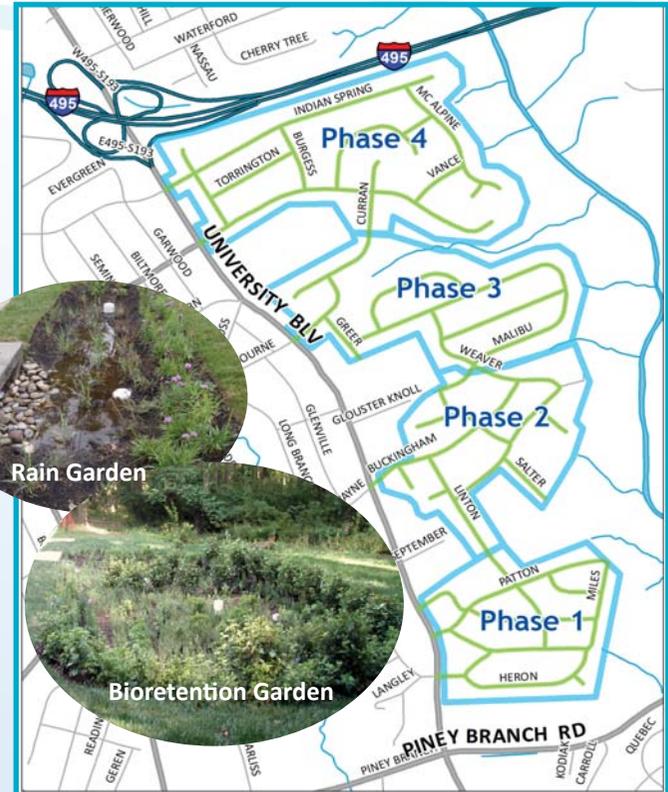

The Department of Transportation (MCDOT) is anticipating roadway improvement projects to replace/repair roadways, curbs, and sidewalks in your neighborhood. MCDEP plans to add Green Streets practices around the same time and will be coordinating with MCDOT.

This project is part of the County's goal to reduce stormwater runoff, minimize pollution, promote infiltration, and restore stream conditions in the Northwest Branch, the Anacostia River, and the Chesapeake Bay.
