

MONTGOMERY COUNTY COUNCIL  
ROCKVILLE, MARYLAND

OFFICE OF THE COUNCIL PRESIDENT

July 31, 2015

Virginia F. Kearney, Acting Director  
Water Management Administration  
Maryland Department of the Environment  
1800 Washington Boulevard  
Baltimore, MD 21230

Dear Ms. Kearney,

Enclosed please find two copies of Resolution 18-217, approved by the Montgomery County Council on July 21, 2015. This resolution includes category change amendments to Montgomery County's Comprehensive Water Supply & Sewerage Systems Plan for two properties. An electronic copy of Resolution 18-217 is available at the Council's website at: [http://www.montgomerycountymd.gov/COUNCIL/Resources/Files/res/2015/20150721\\_18-217.pdf](http://www.montgomerycountymd.gov/COUNCIL/Resources/Files/res/2015/20150721_18-217.pdf).

Section 9-507 of the Environmental Article of the Maryland Code provides that the Maryland Department of the Environment (MDE) has 90 days to review a county governing body's action to amend the County's Water and Sewer Plan. Upon notice to the County, MDE may extend that review period for another 90 days if necessary. At the conclusion of this review period, if no specific action is taken by MDE on any amendment in the resolution approved by the County Council, that amendment is approved by default.

If you have any questions regarding the enclosed resolution, please contact Keith Levchenko of Council Staff at (240) 777-7944 or at [keith.levchenko@montgomerycountymd.gov](mailto:keith.levchenko@montgomerycountymd.gov).

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink that reads "George Leventhal".

George Leventhal  
Council President

GL:kl  
Enclosure

c: David R. Craig, Secretary, Maryland Department of Planning

Resolution No.: 18-217  
Introduced: May 21, 2015  
Adopted: July 21, 2015

**COUNTY COUNCIL  
FOR MONTGOMERY COUNTY, MARYLAND**

---

Lead Sponsor: County Council

---

**SUBJECT: Amendments to the Comprehensive Water Supply and Sewerage Systems Plan**

**Background**

1. Section 9-501 et seq. of the Environmental Article of the Maryland Code requires the governing body of each County to adopt and submit to the State Department of the Environment a comprehensive County Plan, and from time to time amend or revise that Plan for the provision of adequate water supply systems and sewerage systems throughout the County.
2. Section 9-507 of the Environmental Article of the Maryland Code provides that the Maryland Department of the Environment (MDE) has 90 days to review a county governing body's action to amend the County's Water and Sewer Plan. Upon notice to the County, MDE may extend that review period for another 90 days, if necessary. At the conclusion of this review, MDE must either approve or reject the Council's action on each of these amendments, or the action is confirmed by default. Any action approved or taken by this resolution is not final until that action is approved by MDE or the period for final MDE action has expired.
3. In accordance with the State law on December 30, 1969, by Resolution No. 6-2563, the County Council adopted a Comprehensive Ten-Year Water Supply and Sewerage Systems Plan which was approved by the State Department of the Environment.
4. The County Council has from time to time amended the Plan.
5. On May 13, 2015, the County Council received recommendations from the County Executive regarding nine Water and Sewer Plan amendments.
6. Recommendations on these amendments were solicited from the Maryland-National Capital Park and Planning Commission, Washington Suburban Sanitary Commission Staff, and affected municipalities.

7. A public hearing was held on June 23, 2015.
8. The Transportation, Infrastructure, Energy & Environment Committee discussed these amendments on June 29, 2015 and made recommendations to the Council.
9. The Council held a worksession on July 14, 2015.

**Action**

The County Council for Montgomery County, Maryland approves the following actions on amendments to the Ten-Year Comprehensive Water Supply and Sewerage Systems Plan as shown in the attachments to this resolution.

This is a correct copy of Council action.

Linda M. Lauer  
Linda M. Lauer, Clerk of the Council

**Montgomery County Comprehensive Water Supply and Sewerage Systems Plan  
April 2015 Amendment Transmittal: Water/Sewer Category Map Amendments**

Montgomery County uses water and sewer service area categories, in part, to identify those properties that should use public water and/or sewer service versus those that should use on-site systems, usually wells and/or septic systems. Category 1 identifies properties approved for public service and that have access to public system mains. Category 3 identifies properties approved for public service but need new main extensions in order to receive public service. Categories 4 and 5 identify properties that currently should use on-site systems, but are proposed for public service in the future. Category 6 identifies properties that should use on-site systems, where public service is not planned for at least the next ten years. (See page 5 for additional information.)

Property owners file category change map amendment requests seeking to change the service areas for their property from one category to another, often based on anticipated development plans. The following charts present the County Council's actions on water/sewer category map amendment requests filed with DEP and transmitted by the County Executive to the Council for consideration in May 2015.

**Montgomery County Comprehensive Water Supply and Sewerage Systems Plan  
April 2015 Amendment Transmittal: Water/Sewer Category Map Amendments**

**Water & Sewer Service Area Categories Summary**

Category Definition and General Description	Category Definition and General Description
<p style="text-align: center;"><b>W-1 and S-1</b></p> <p>Properties approved for and generally with existing access to community (public) service. This may include properties which have not yet connected to existing community service.</p>	<p style="text-align: center;"><b>W-5 and S-5</b></p> <p>Properties planned for future public service, but which may use private, on-site systems (wells and septic systems) on a permanent basis. • Areas where improvements to or construction of new community systems are planned for the seven- through ten-year period.</p>
<p style="text-align: center;"><b>W-3 and S-3</b></p> <p>Properties planned and approved for community (public) service, but <u>without</u> existing access to public service. • Public service will generally be provided within two years as development and requests for community service are planned and scheduled.</p>	<p style="text-align: center;"><b>W-6 and S-6</b></p> <p>Properties that will use private, on-site systems (wells and septic systems), where community (public) service is not planned. • Category 6 includes areas that are planned or staged for community service beyond the scope of the plan's ten-year planning period, and areas that are not ever expected for community service on the basis of adopted plans.</p>
<p style="text-align: center;"><b>W-4 and S-4</b></p> <p>Properties planned for future public service, but which need to use private, on-site systems (wells and septic systems) in the interim. • Areas where improvements to or construction of new community systems will be programmed for the three- through six-year period. B</p>	<p>Note: Although the majority of properties in the county have the same water category as sewer category (i.e. W-3 and S-3, or W-5 and S-5), this is not always the case. The County does not always assign water and sewer categories in tandem, due to differences in service policies or to actual service availability. For example, a particular property could have service area categories W-1 and S-6. Therefore, it is important to know both the water and sewer service area categories for a property. Montgomery County does not use categories W-2 and S-2 in its Plan.</p>
