

Request for Action on Use of Public Utility Rights-of-way for Shared Use Facilities (Hiker/Biker Trails)

The Bicycle Access and Safety Subcommittee requests that a PBTSAC work group be convened and tasked with developing a recommendation regarding the creation of a shared use hiker/biker pathway on existing PEPCO Right-of-way. The ROW work group will consider input from various stakeholders and provide a recommendation to the PBTSAC at the March 2014 meeting.
