True or False:

The first thing you should do when walking anywhere is to ask a parent.

True They need to go with me OR make sure the route I'm walking is safe

False I don't need to check with them.

If you answered **false**:

Not even close! Tisk tisk. A parent needs to know where you are going so they can go with you or give you permission because they know the route you will walk will be safe.

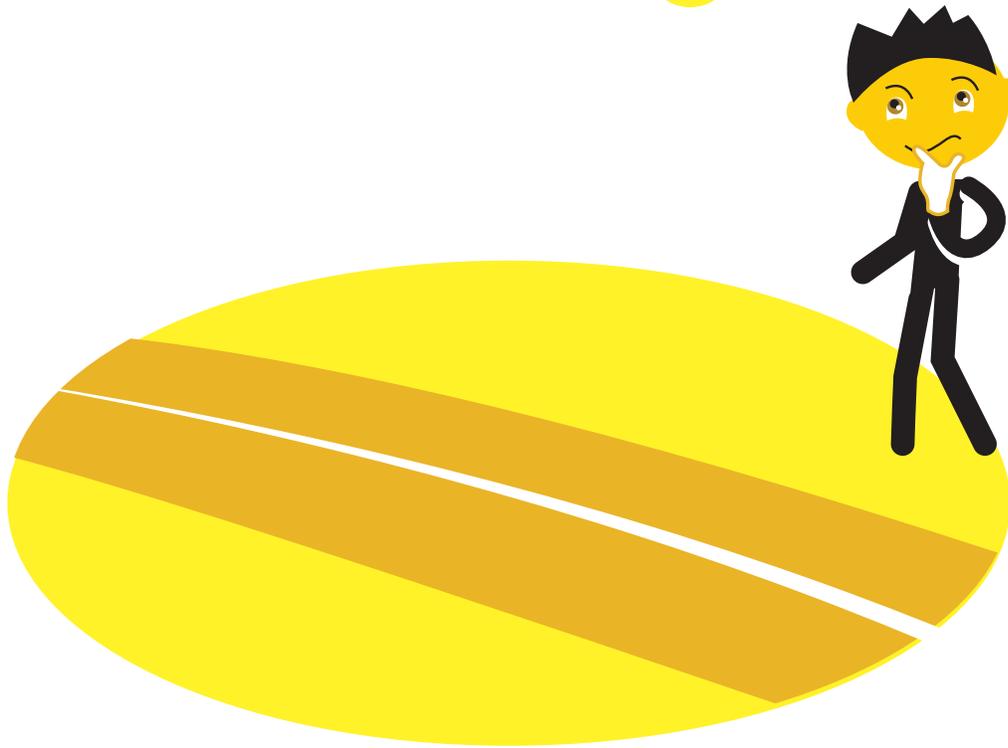

If you answered **true**:

That's right! A parent needs to know where you are going so they can go with you or give you permission because they know the route you will walk will be safe.
