

Walk - In Sites (No Appointment Necessary) Locations and Schedules

We make every effort to see all walk-in patients. However, depending upon the volume of people seeking care on a particular day, we may need to refer some patients to another location or another clinic day. All patients who arrive at the beginning of the clinic session will be assessed by the Clinic Nurse. Patients will be seen by the provider in an order based upon:

- Medical need
- The need for and availability of an interpreter
- Order of arrival. (These clinics are not first-come first served.)

The nurse or her assistant will start a list of patients when she arrives at the clinic. Patients are not permitted to start their own walk-in list.
