MEDIA GUIDELINES

The Montgomery County Board of Elections provides this set of guidelines to ensure the orderly conduct of elections, and to protect the rights of voters and candidates alike. Although the guidelines may seem elementary, we ask that you observe them closely. If you have any questions, or require additional information, please call Marjorie Roher at 240-777-8625.

Guidelines for Covering Activity at a Polling Place

- Contact Marjorie Roher, at 240-777-8625, at least 72 hours in advance of your Early Voting or Election Day coverage to arrange for media credentials.
- Upon entering the voting area, contact one of the Chief Judges, located at the Voter Assistance table. These persons have supervisory authority in the polling place and are the individuals to whom you should make your presence known. Be prepared to present your media credentials.
- Do not converse with any voter in the voting area.
- Although you may take pictures in the polling place during voting hours, you must first confer with the Chief Judge regarding camera placement, lighting, etc.
- Do not disrupt the voting process or the work of the polling place staff.
- Do not in any way compromise or endanger the secrecy of a voter's ballot (e.g., taking a picture in such a way as to show how a ballot was voted).
- Your presence in the polling place is authorized for media coverage only. Please leave promptly after completing your work.

Guidelines for Exit Polling

- Pollsters are not permitted in the voting room.
- Pollsters are not permitted to ask questions of a voter until the voter has left the voting room.
- Pollsters must inform the voters that their participation in the poll is voluntary.
- Pollsters are not permitted to electioneer. Therefore, the electioneering limits set forth in Section 16-206(b)(2) of the Election Law do not apply.

Who Is Authorized to Be Present in the Polling Place?

Under the Election Code, the following individuals (and ONLY the following individuals) are permitted access to the voting room at a polling place:

- A voter;
- An individual who accompanies a voter in need of assistance;
- An individual under the age of 18 who accompanies a voter;
- Members of the polling place staff;
- Members or representatives of the State Board of Elections or the county board of elections;
- Any accredited challenger/watcher (see below); and
- Any other individual authorized by the State Board of Elections or the county board of elections.

The State Board's regulations give express permission to representatives of the print and electronic media to be present in a polling place, and to use cameras there, as long as their activities do not cause disruption, infringe on voter privacy, inhibit election judges from performing their duties, or otherwise interfere with the orderly conduct of the election. Cell phones, pagers, or other audible electronic devices may not be used in a polling place by anyone (including a representative of the media) other than an election official or law enforcement officer acting in an official capacity.

State Board regulations also permit members of the media or others to conduct exit polling, whether by questionnaire or interview, within the "no electioneering" zone outside a polling place, as long as pollsters do not enter the voting room, do not ask questions of a voter until the voter has left the voting room, tell each voter being surveyed that the voter's participation is voluntary, and do not electioneer.

Challengers/Watchers

The Election Code specifically authorizes the State and local election boards, candidates, recognized political parties, and other groups supporting or opposing a candidate or question on the ballot to designate registered voters as challengers or watchers. The board, candidate, party, or group designating a challenger or watcher must accredit the challenger/watcher by signing a certification form provided by the State Board of Elections. An accreditation certificate must bear the signature of an authorized officer of the designating authority, but the signature need not be an original. If the election judges have any question about the accreditation of a challenger/watcher, the chief judge should contact the local election director to perform any verification; meanwhile, the individual should be permitted to remain in the polling place.

It has been the practice to permit any candidate or party to designate more than one challenger/watcher for a particular polling place. The election judges retain ultimate authority, however, to limit the number of challengers/watchers as necessary to assure the orderly flow of election business. When imposing a limit, election judges should be careful to restrict all candidates, parties, and other groups equally.

A challenger or watcher has the right to:

- Enter the polling place more than 30 minutes before the polls open;
- Be present in the polling place whenever the polls are open;
- Be positioned near the election judges so that he/she may see and hear each person who appears to vote;
- Remain in the polling place after the polls close, until the election judges leave;
- Maintain a list of registered voters who have voted and take the list outside the polling place; and
- Enter and leave the polling place to take out information that indicates registered voters who have cast ballots.

Challengers/watchers are expressly prohibited from:

- Ascertaining how a voter voted or intends to vote;
- Conversing in the polling place with any voter;
- Assisting any voter in voting; or
- Physically handling any original election document;
- Interfering with the duties of the Election Judge.

If a challenger or watcher violates any of these prohibitions, an election judge may eject the challenger/watcher from the polling place. A challenger/watcher may challenge the right of any person to vote, but only on the grounds that the challenged individual is not the registered voter he or she claims to be. The challenger must be prepared to state, under oath, a reason for believing that the particular voter is claiming a false identify. The challenger/watcher may NOT routinely question voters.

If you do not have a *Challenger and Watcher Certificate*, you are considered a "non-accredited challenger and watcher." Non-accredited challengers and watchers are permitted in a polling place for one purpose – to challenge an individual voter's right to vote. The **only** ground on which a challenge can be made is a challenge to the voter's identity (*i.e.*, that the voter is not who he or she says he or she is). Once the challenged voter shows ID or you and the challenged voter complete the required paperwork, you must leave the polling place.

If the individual does not present one of the forms of ID, the chief judge will:

- Require you to provide, in writing and under penalty of perjury, the reason for the challenge (see Appendix B for the *Affidavit for Challenger and Challenged Voter*);
- Offer the challenged voter the opportunity to cast a provisional ballot and submit a signed statement, witnessed by the election judge, of his or her identity; and
- Submit to the local board of elections the provisional ballot and other materials related to the challenge.

During the provisional ballot canvass (held on the second Wednesday after the election), the local board of canvassers will determine, based on the information submitted by you and the challenged voter, whether the voter is whom he or she claims to be and is otherwise qualified to vote. The voter is permitted to submit identification in accordance to regulations to respond to the identity challenge for the Provisional Canvass.

As a member of the media, or as a challenger and watcher, you do **not** have the right to challenge an act of an election judge. If, however, you are certain that an election judge either improperly performed a task or neglected to perform a required task, you should notify the local board of elections or follow the instructions provided by the individual or entity who designated you as a challenger and watcher.

WHAT'S NEW SINCE THE LAST PRESIDENTIAL ELECTION?

NEW VOTING SYSTEM: This year the State of Maryland is implementing a new, paper based, optical scan voting system. Voters will mark their selections with a pen on paper ballots prior to inserting them in an optical scanner for tabulation. For a list of upcoming outreach events, where the new system may be seen, visit our website at www.777vote.org.

SAME DAY VOTER REGISTRATION: Did you miss the April 5 deadline to register to vote? During Early Voting you may register to vote the same day you vote. You must have a valid Maryland driver's license or MVA issued photo id and proof of residency to register. Once you register you will be issued a ballot. *This opportunity is NOT available on Election Day!* If you're still not registered and want to vote, visit an Early Voting Site between April 14 and 21. You may not change your party affiliation at this time – only new registrants or current registrants who need to change their address may take advantage of this opportunity.

EARLY VOTING: In 2016 the Maryland Legislature increased the number of Early Voting locations in Montgomery County to ten. What is early voting? Early voting provides the voter with an opportunity to vote in advance of Election Day by visiting an Early Voting Center located in their jurisdiction. Voters may choose any of the ten Centers most convenient to their normal routine at which to vote. Votes cast during early voting are tabulated on Election Day and released as a separate total prior to the release of Election Day totals.

ABSENTEE BALLOT INFORMATION (HOW TO, TRENDS, COUNTING)

An Interesting History.....Absentee (or voting by mail) voting goes back a long way. In fact it all began during the Civil War when the first absentee ballots were allowed by the North for the soldiers and sailors. Universal absentee voting began in 1978. Prior to 1978, absentee ballots were available only to the ill and disabled, those who lived too far from the polls and other special circumstances. As a result of the change in legislation allowing any person unable to vote in their polling place on Election Day to vote by mail, it has become a very popular means to cast a ballot. For the 2012 General Election 44,948 vote by mail ballots were requested and 38,938 vote by mail ballots were cast; for the 2014 General Election 17,127 vote by mail ballots were requested and 13,731 were cast.

Vote by mail ballots may be requested in one of three ways:

- By letter to the Montgomery Board of Elections, P.O. Box 10159, Rockville, MD 20849-10159;
- By downloading the absentee voting application from the Board's website, www.777vote.org and either mailing it to the P.O. Box listed above or faxing it to 240-777-8590; or
- In person at the Gaithersburg office – 18753 N. Frederick Avenue, Suite 210, Gaithersburg, Maryland 20879.

You may now also **choose how you want to receive your vote by mail ballot**. Election officials can mail or fax your ballot to you, or you may download your ballot from the States' website at

http://elections.maryland.gov/voting/documents/2014_Absentee_Ballot_Application_English.pdf or, for a Spanish ballot,

http://elections.maryland.gov/voting/documents/Absentee_Ballot_Application_Spanish.pdf .

When you request a ballot, you pick how you want to receive your ballot. If you want to download the ballot, make sure you provide your email address. Ballots are sent or posted to the website approximately three weeks before an election. If you want to download your ballot, we will send you an email when your ballot is ready. The email will include your ballot tracking number and a link where you can print your ballot and instructions for completing it and returning it to the Board of Elections. You must enter the ballot tracking number to access your vote by mail ballot. Once your ballot is completed, it shall be mailed or hand delivered to the Board of Elections.

The following provides a list of remedies if you apply for a vote by mail ballot and have not received it within a week after mailing your application:

- Request a replacement vote by mail ballot be mailed;
- Vote at the Board of Elections during the absentee voting period (from 29 days prior to the election through election day);
- Vote at your neighborhood polling location.

Under special circumstances a voter may request an emergency vote by mail ballot from April 19 - 26, for the Primary Election, and November 1 - 8 for the General Election. The Board of Elections office will be open during the hours noted below. For additional information regarding this service, or any questions regarding vote by mail voting, you may call 240-777-8500 between the hours of 8:30 a.m. and 5 p.m., Monday through Friday.

PROVISIONAL VOTING IN THE STATE OF MARYLAND

The Provisional Ballot is a safeguard to ensure that no individual who asserts that he or she is registered and eligible to vote is prevented from casting a ballot on Election Day. The Provisional Ballot is only counted after the local Board of Elections has reviewed the Provisional Ballot Application and made a determination that the individual is registered and eligible to vote. The Provisional Ballot is not an alternative to the electronic voting equipment. The voter must be eligible to receive a Provisional Ballot. A Provisional Ballot cast by a voter who is ineligible to vote provisionally will be rejected.

1. **Who Votes a Provisional Ballot?** A person who believes he/she is registered to vote in the State of Maryland and is eligible to vote.
2. **Which Provisional Ballots will be counted?** The Board of Canvassers confirms the person is a registered voter in the State of Maryland, is eligible to vote, and was
 - a. not listed on the Precinct Register, or
 - b. listed on the Precinct Register but indicated a change of address, or
 - c. listed on the Precinct Register but claims to have a different party affiliation (Primary Election only), or
 - d. listed in the Precinct Register as an Absentee Voter (ABS), or
 - e. listed in the Precinct Register as an Identification Required Voter (ID) and unable to provide valid or current identification to qualify for a regular electronic ballot, or
 - f. not eligible to vote in the non-partisan Board of Education race (applies only to seventeen year olds who will turn eighteen on or before November 8, 2016), or

Board of Elections
Montgomery County
MARYLAND

MEDIA ADVISORY

For Immediate Release: March 16, 2016

MONTGOMERY COUNTY VOTERS: CHECK YOUR MAIL FOR YOUR PERSONALIZED SAMPLE BALLOT

Early voting starts April 14. Not sure where to vote or what choices will be on the ballot? Check your mail. If you are registered to vote, the Montgomery County Board of Elections is mailing you a personalized sample ballot, along with all of the information you will need to vote in the 2016 Presidential Election, depending on which political party you are registered with and where you live. Don't mistake it for junk mail - the sample ballot is an 8 ½ x 11 booklet and has information on Early Voting locations on the front cover and your Election Day polling place on the back cover.

Review your sample ballot carefully for the following information:

- The locations of the Montgomery County Early Voting Centers where you may choose to cast your ballot between April 14 and 21;
- The location of your assigned polling place on Election Day – April 26;
- Instructions on how to use the new paper based, digital image scan voting system;
- Directions on how to review your choices prior to casting a ballot;
- Pictures of the actual ballot;

Take the time to carefully read this information so you are familiar with it before you get to your polling place. To facilitate the voting process, the Board of Elections encourages you to mark your sample ballot in advance and take it with you – it saves you time.

The County's Early Voting Centers will be open from Thursday, April 14 through Thursday, April 21, from 10 a.m. to 8 p.m. During Early Voting, the Board of Elections encourages voters to visit our website – www.777vote.org – to view the wait time scroll bar and for voting locations and information.

On Election Day, April 26, many people will vote during the peak hours, you may want to avoid voting during during these hours: 7 a.m. to 9 a.m., 11 a.m. to 2 p.m., and 5 p.m. to 7 p.m. To avoid the longest lines you may want to vote outside of these hours.

For more information, call 240-777-VOTE, visit www.777vote.org, our mobile friendly website at m.montgomerycountymd.gov/elections, the Maryland State Board of Elections' website at <http://elections.state.md.us>, or follow the Montgomery County Board of Elections on Facebook or Twitter.

WHAT IS AN ELECTION JUDGE?

An election worker is a registered Maryland voter who volunteers to assist voters on Election Day. The role of an election worker is to ensure fair and accessible elections for all voters and to protect the integrity of the election process. In accordance with Federal and State law, they must perform all of the duties assigned by the local Board of Elections and perform their duties faithfully, diligently, and without partiality or prejudice.

An election worker who serves in the polling place is a very important part of the electoral process. This individual is the point of contact between the Board of Elections and the general public during voting hours. He/She is responsible for administering the actual voting procedures in each precinct and making sure that the voters have a positive voting experience. Without these individuals, it would be impossible to conduct successful elections.

QUALIFICATIONS:

- Be a registered voter in Maryland
- Clearly and fluently speak, read and legibly write the English language
- Under Maryland law, an election worker may not hold or be a candidate for any elective public or political party office or any office created under the Constitution or Laws of the State and may not serve as a campaign manager for a candidate or as the treasurer for a campaign finance entity.
- Be able to work the hours required for the position selected
- Lift approximately 50 pounds with assistance
- Successfully complete Stage One (online) and Stage Two (hands-on) training
- Deal courteously and patiently with the public and coworkers
- Attend a mandatory meeting on the Monday evening prior to each election at the assigned polling precinct

ADA STATEMENT

The Montgomery County Board of Elections is sensitive to the needs of individuals with disabilities and the elderly who wish to serve as election workers and participate in the election process. Upon request reasonable accommodation will be made by the Board of Elections to facilitate opportunities for training and service.

All election workers in the service of the Board of Elections must be sensitive to the needs of voters with disabilities and the elderly. Reasonable accommodations will be made to assist these voters so as to enable them to vote.

BILINGUAL ELECTION WORKERS AND THE VOTING RIGHTS ACT

On August 11, 2001 the US Department of Justice informed the Montgomery County Board of Elections of its legal obligation to implement Section 203 of the 1975 Voters Rights Act, which requires that all materials related to voting and Election Day activities be prepared in both English and Spanish to allow citizens to effectively participate in the political process. Determinations are based on data from the most recent Census, and the determinations are made by the Director of the Census.

Voters with Spanish speaking fluency are especially needed because the county places election workers who are fluent in Spanish at every polling place in accordance with the requirements of Section 203 of the 1975 Voting Rights Act. Bilingual workers are needed for Early Voting and Election Day.

The Election Law of Maryland requires that election workers must be registered to vote in the State of Maryland, 17 years of age or older, and a U.S. citizen. Bilingual workers must also be able to speak, read, and write in English. All election workers will be compensated for training and for Election Day service.

On July 27, 2006, President George W. Bush signed legislation which extended the Voting Rights Act to 2031, reaffirming Congress' belief that all men/women

are created equal by outlawing racist voting practices and beliefs. Concerns with this legislation should be addressed to your federal representative. A synopsis of Section 203 as developed by the U.S. Department of Justice can be reviewed at the following link ([here](#)).

ELECTION JUDGE CODE OF CONDUCT

To ensure that Montgomery County citizens are provided with the best election experience, we ask that everyone adhere to the Election Worker Code of Conduct (COC) which governs individual responsibilities and polling place behavior. Violation of one or more of the codes of conduct may result in removal from the Montgomery County Election Worker program. The Code of Conduct is available online and will be reviewed in training.

TRAINING

Maryland law requires all registered voters who desire to become an election worker to attend a training session as a condition of appointment. Training is conducted online and in-person for those serving on Election Day. Separate training sessions are held for workers selected to work Early Voting. Applicants are required to pass BOTH a written and hands on training in order to serve. In person, hands-on training sessions are held primarily at the Board's offices but may be offered at other locations in the county.

It is necessary to review the laws and procedures that govern elections each year. Each year the General Assembly of Maryland passes legislation that changes the way elections are conducted. An accurately informed and properly trained worker decreases the possibility of errors in the operation of a precinct on Election Day. (***See Training for more information***)

Board of Elections Launches Recruitment for the “Future Vote” Program

The Montgomery County Board of Elections is seeking school-age students, grades 6-12, to participate in its “Future Vote” Program. Future Vote students will serve as Election Day student aides during the 2016 Presidential Primary Election on Tuesday, April 26. There are also opportunities for students to assist the Board of Elections with a variety of activities before Election Day.

Students and their guardians must attend mandatory training to participate in the Future Vote Program and, if applicable, students will receive Student Service Learning (SSL) credits. Most students work in precincts near their home. This initiative combines civic participation and the opportunity to observe democracy in action.

The Future Vote Program is available to all Montgomery County students within public, private, independent, religious or home-schools. U.S. citizenship is not a pre-requisite and students with bilingual and American Sign Language skills are encouraged to apply.

In the 2012 Presidential Election, more than two thousand Montgomery County students participated in the Future Vote Program, including 473 students with bilingual skills and 15 students who were available at polling places to assist voters using American Sign Language.

Interested parents/guardians may register their student(s) before February 29 online by visiting the Montgomery County Board of Elections’ website at www.777vote.org or by e-mailing future.vote@montgomerycountymd.gov.

For more information, call 240-777-VOTE, visit www.777vote.org, or follow the Montgomery County Board of Elections on Facebook or Twitter.

ELECTION DAY/NIGHT

SPEED OF BALLOT COUNTING ELECTION NIGHT - HISTORICAL TRENDS

Early Voting results will be posted on the Board of Elections' website – www.777vote.org – on Election Day as soon after 8:00 p.m. as possible.

Montgomery County tabulates the vote using the State of Maryland certified voting system. There is tabulation at each precinct. The implementation of the new paper based, digital image scan voting system was mandated by an Act of the Maryland Legislature. Early Voting results will be posted on Election Day as soon after 8:00 p.m. as possible. The first Election Day results will be posted at 9:00 p.m. with results posted every 20 minutes until all results have been received at the Board's Office.

HOW DO THE BALLOTS GET TO GAITHERSBURG?

On election night, ballots from all voting precincts are transmitted to the Board's headquarters in Gaithersburg for tabulation.

- After the polls close at 8 p.m., the poll worker teams must close down the optical scan tabulation unit and deliver the flash drive containing the results to a regional tabulation site which will transmit the results to the local Board of Elections. Precinct officials will return all critical supplies to Board of Elections, usually arriving between 9:30 p.m. and 12:30 a.m.

Thousands of dedicated individuals are involved in ballot transport, preparation and tabulation. We appreciate the massive effort undertaken by our staff, our poll workers and our polling place hosts!

INCOMPLETE TABULATION

There are two categories of ballots which cannot be processed on Election Night:

- Vote by mail (absentee) ballots
- Provisional ballots voted at the polls

VOTE BY MAIL (ABSENTEE) BALLOTS

State law requires vote by mail ballot tabulation to begin on the Thursday after the election. All vote by mail ballots must be pre-processed before they are counted – this includes verifying every absentee voter prior to opening the absentee ballot envelopes to remove the ballots in preparation for the counting.

Paper ballot counting will take place at 10:00 a.m. every day beginning the first Thursday following the election. Therefore, the first optical scan count will be held on Thursday, April 28 (Primary) and November 10 (General) at 10:00 a.m. with our goal to have the majority of absentee ballots tabulated by Tuesday, May 3 (Primary) and Tuesday, November 15 (General). Absentee ballots are accepted through 10 a.m. on May 6, when the second Absentee Canvass convenes; ballots must be postmarked or received at the Board of Elections, no later than 8 p.m. on Election Day, April 26, in order to be counted. However, due to the extra research required to validate provisional ballots, these ballots are usually the last to be tallied prior to the completion of the official canvass.

PROVISIONAL BALLOTS

Provisional ballots are voted at the polls when a voter's registration is in question, or when our records indicate the voter was already sent an absentee ballot. Provisional ballots are sealed in special envelopes at the polls and must be individually researched and verified at the Board's Office before ballots are counted or rejected in accordance with election laws. Provisional ballot counting will take place at 10:00 a.m. every day beginning the second Wednesday following the election. Therefore, the count will be held on Wednesday, May 4 (Primary) and Wednesday, November 16 (General).

We realize it is difficult for candidates/campaigns involved in close races to wait days and sometimes weeks to know whether or not they won or lost the election. However, we hope that the reasons for the delays in the final ballot tally have been explained fully in this memo. If you have any additional questions, please call Marjorie Roher at 240-777-8525.

WRAPPING UP THE ELECTION – CANVASSING AND RECONCILIATION

WHAT IS THE VOTE CANVASS?

The election canvass process is an internal reconciliation and is required by state law to ensure the accuracy of election results. Maryland election law allows 20 days for the conduct of the official canvass of final election results. The canvass begins on Thursday after the election and will be concluded no later than the second Monday after the election. All aspects of the canvass are open to public viewing. Prior to the canvass, provisional ballots are researched to determine eligibility. Eligibility recommendations are provided to the Board of Canvassers during the canvass and ballots are counted beginning on Thursday and every day until completed. The canvass concludes with the certification and issuance of official election results.

WHAT IS THE RECONCILIATION/AUDIT PROCESS?

Election Judges ensure compliance in the precinct with all Laws and Regulations related to the conduct of the election. Following the election, at the same time the canvasses are being held additional staff begins the reconciliation/audit process. The post-election, pre-certification assessment and reconciliation is a comparison of the number of votes cast on the voting machines to the number of persons with posted credit by precinct. The review requires local board of elections' staff to examine the mandatory paperwork completed by the election judge relating to the documentation from the electronic poll book and the voting units assigned to the precinct. Staff will validate documentation provided to election judges including the successful closing of the units used related to the precinct reporting of results. A thorough review is made of information from each precinct to identify human error by voters or election judges and to correct such errors in order to accurately record and report voter credit to meet State Board of Elections Certification Deadlines.

Why is the number of voters at check-in different than the number of votes on the machines?

A voter decides not to vote and leaves the Polling Place

The judges check-in the wrong voter by mistake

The voter ends up voting a Provisional Ballot

How do we reconcile the numbers so that they are an accurate reflection of what happened in the Polling Place?

Compare both databases (Scanning Unit and Voter Credit)

Examine Polling Place Resources: Given the correct information we can adjust voter credit to reflect what actually happened

SUMMARY

Optical scan ballot counting of absentee and provisional ballots will occur in the days/weeks following the election. Based on past trends, the number of ballots remaining to be counted after election night is anticipated to exceed 10,000 countywide for this election cycle. These ballots are not segregated by district prior to counting. Therefore, the number of outstanding ballots for any specific electoral district will be unknown until the computer tallies these ballots. Our staff will be working extra shifts to prepare all outstanding ballots for tabulation.

Maryland law permits 20 days to complete the final, official canvass and certify the election results. This provision of the law recognizes the complexity of completing the ballot count and conducting a thorough reconciliation of the election results to ensure accuracy.

How Maryland Votes

1 Mark Ballot

Mark the oval next to your choice using a black ballpoint pen. To cast write-in votes, mark the oval next to the write-in space, then print the candidate's name.

2 Review Ballot

Review that your ballot is marked correctly. Did you turn it over? There may be contests on the other side!

3 Scan Ballot

Insert your ballot into the ballot scanner. Your ballot can be tabulated in any orientation (right side up, backward, or upside down). A Thank you for voting screen will appear after your ballot is accepted.

Correctly marking your ballot

CORRECT

INCORRECT

IT IS IMPORTANT TO MARK YOUR BALLOT PROPERLY BEFORE INSERTING IT INTO THE BALLOT SCANNER TO ENSURE THAT YOUR VOTES ARE COUNTED CORRECTLY.

- Completely fill in the oval next to your choice using a black ballpoint pen. Do not use an "x" or other notation.
- Do not mark more than the allowable number of selections per contest.
- If you make a mistake when marking your ballot, ask an election worker for a replacement ballot.
- Make sure all of the contests you intend to vote in are marked appropriately.

DO NOT FOLD YOUR BALLOT BEFORE INSERTING IT INTO THE BALLOT SCANNER.

SECURITY, ACCURACY, AND RELIABILITY OF MONTGOMERY COUNTY'S VOTING SYSTEM

INTRODUCTION

Montgomery County is implementing a new, paper based, digital image scan voting system in 2016. ES & S' voting system is used throughout the State of Maryland. This document is provided for Montgomery County voters who have concerns regarding electronic voting systems and who want to know whether their paper ballot cast on an electronic voting device is safe and secure. The information provided in this document can provide confidence to the vast majority of Montgomery County voters that their vote will be accurately counted and reported by our voting system.

While no voting system is perfect, studies show that electronic voting systems offer the most accurate and secure method of voting available:

- Voters are immediately able to completely correct a vote for the wrong candidate.
- Voters must view a summary screen of all races and measures before casting the ballot – this gives an opportunity to review and change their choices before a vote is cast.
- Voters are alerted to un-voted, over-voted, or under-voted races on the summary screen.
- Votes are redundantly stored in multiple physical memory locations to preserve election results in the event of equipment failure.

It is also important to remember that voting equipment is only one component of an overall election system that includes citizen involvement, transparency, external security measures, management policies and procedures, and professional election officials. All of these people, procedures, and technologies work together to ensure reliable and trustworthy election results.

WHY WE REPLACED OUR ELECTION DAY VOTING SYSTEM

The Maryland Legislature, in response to concern from the voting public, passed legislation in 2010 to utilize a paper based, optical scan, voting system to provide a paper copy of each vote cast. Funding was provided in 2015 and the new system will be implemented state-wide for the Presidential Primary Election in 2016.

DESIGN OF THE ES&S DIGITAL IMAGE SCAN VOTING SYSTEM

EQUIPMENT SAFEGUARDS AGAINST UNAUTHORIZED ACCESS

The digital scan voting system includes both physical and electronic intrusion detection controls, such as numbered seals (commonly used in elections), and time-stamped transaction logs that record every system action related to the voting process. Data cannot be inserted or altered by unauthorized personnel because the database structure is proprietary and is protected by encrypted passwords determined by the State Board of Elections' Administrator.

CLEAR AUDIT TRAIL

Each component of the digital scan voting system creates an audit record every time it is accessed or information is changed. All audit records can be extracted and printed in hard copy. All audit reports, audit trail documents, databases, and election reports can be archived in hard copy and/or saved electronically to CD-ROM to preserve information as required by the Election Code. Ballot images are captured of each vote cast.

VOTING SYSTEMS CERTIFICATION & INDEPENDENT TESTING

FEDERAL CERTIFICATION TESTING

Voting system certification standards employed in Maryland are among the most stringent in the nation. The voting system certified for use in Maryland must comply with the Federal Voting System Standards promulgated by the Federal Election Commission. An Independent Testing Authority (ITA) selected and approved by the National Association of State Election Directors (NASSED) rigorously tests each voting system's hardware, firmware, and software for compliance with the Federal Voting System Standards. Voting systems certified by the ITA are issued a NASSED Qualified Identification number to show that they meet or exceed the Federal Voting System Standards.

STATE CERTIFICATION TESTING

In addition, Maryland election law requires the Election Administrator to certify the state voting system. The Election Administrator's testing involves a team of six examiners. The Election Administrator appoints four examiners, one of whom must be a full-time employee of the Maryland State Board of Elections. The Attorney General appoints two examiners, one of whom must be a full-time employee of the Office of the Attorney General. Two of the Election Administrator's appointees must have demonstrated ability and experience in mechanics or electronics appropriate to the system or equipment to be examined, and two of the Election Administrator's appointees must have demonstrated knowledge of and experience in election law and procedure. Before the Maryland examination of a voting system, the system must be tested by a Nationally Recognized Test Laboratory (NRTL) and shall meet or exceed the minimum requirements set forth in the Performance and Test Standards for Punch Card, Mark

Sense, and Direct Recording Electronic Voting Systems, or in any successor voluntary standard document developed and promulgated by the Federal Election Commission.

Voting systems vendors must submit each hardware, firmware, and/or software update to the ITA and the Election Administrator for testing in order to maintain their voting system's certification.

VOTING SYSTEM TRANSPARENCY – TESTING, TESTING, TESTING . . .

LOGIC AND ACCURACY TESTING

The accuracy of digital scan voting devices are tested by "Logic and Accuracy" testing before and after each election as required by the Election Code to make certain that the voting system is working properly. Votes from a hand-marked paper ballot are entered into the electronic voting devices. Printed totals from the electronic system are then compared to the hand-counted results. Additional functional tests are performed manually on each voting device.

In addition, the digital scan voting system prints a "zero report" when the machines are opened and powered-up at the polling place to document that there are no prior votes stored within the system.

OTHER SECURITY MEASURES AND PROCEDURES

SECURITY AT THE COUNTY ELECTIONS OFFICE

An upgrade of physical security features was conducted within the Board of Elections including video surveillance of all areas of the office where voting equipment is to be stored and rooms where ballot origination computers and election tabulation computers are located. Access into certain secure areas (where ballot origination and tabulation computers are kept) is limited to key Election staff members.

SECURITY AT THE POLLING PLACE

Voting devices are delivered to the polling places several days before Election Day. They are kept in a secure location at each polling place until Election Day. Each voting unit is stored inside a locked, secure case and sealed with a numbered seal to prevent unauthorized access. The presiding election judge is required to verify that the correct seals are intact on the voting devices and to certify this information on a chain-of-custody log before the equipment may be opened and used in the election.

OTHER MANAGEMENT AND OPERATIONAL PROCEDURES

Internal management and operational procedures are crucial to the success and reliability of any voting system, including our previous voting systems. The following procedures will be carried forward or instituted:

- An audit of each precinct's electronic tally of the number of votes cast is conducted against the number of signatures in the precinct's poll book roster.
- Polling place officials are required to certify in writing that the proper locks and seals were found to be intact on the voting equipment before the polls open.
- Polling place officials are required to print and keep a "zero tape" from the voting system before the polls open to ensure that no votes have been pre-loaded into the system.
- A physical inventory of all voting devices is conducted before and after each election to ensure custody of all voting devices is maintained.
- All election judges, early voting workers, county Election staff, and central counting workers undergo extensive training in both voting equipment operation and election law/procedure.
- Bi-partisan staffing is encouraged and employed to the extent possible at Election Day polling places and the central counting station.

SUMMARY REMARKS

Montgomery County's voting equipment is only one component of an overall election system that includes citizen involvement, transparency, external security measures, management policies and procedures, and professional election officials. All of these people, procedures, and technologies work together to ensure reliable and trustworthy election results.

The Montgomery County Board of Elections is keenly aware that it has front-line responsibility for the integrity of the voting process. We have a commitment to each Montgomery County voter, taxpayer, candidate, elected official, and citizen that each vote is correctly tabulated and reported.

Questions, comments, or concerns regarding the voting process should be submitted in writing to:
