

ADVISORY OPINION 90-3 [**1990-3**]

The Ethics Commission has reviewed your letter of May 11, 1990 requesting permission to accept referrals from the Montgomery General Hospital Employee Assistance Program to your private practice which was previously approved by the Ethics Commission.

Because the referrals will come from Montgomery General Hospital, which is not a county agency, the commission determined that you may accept referrals from this program. This approval is made with the stipulation that you keep accurate records of all county employees who are referred to you.

Please let us know if you have any further questions.
