

# DHHS Systems Outcomes: Population

## 6 Health Montgomery Priority Areas for Population Health Improvement

**Healthy Montgomery Goals** are to improve access to health and social services; achieve health equity for all residents; and enhance the physical and social environment to support optimal health and well-being.

### Collective Impact Approach

Addressing complex health problems requires multiple sectors committing to a common agenda for solving a specific problem.

### Triple Aim Approach

Optimizing health system performance by integrating health care and population health: improve the patient experience of care, improve the health of populations, and reduce the per capita cost of health care.

#### Behavioral Health

Adults with any mental illness in past year, ER visits for Behavioral Health Conditions, Suicide, Adolescent & adult illicit drug use in past month

#### Cancers

Breast cancer mortality, Colorectal screening, Pap in past 3 years, Prostate cancer incidence

#### Diabetes

Adults with diabetes, ER visits for diabetes

#### Cardiovascular Health

Heart disease mortality, Stroke mortality, High blood pressure prevalence

#### Maternal & Infant Health

Mothers who received early prenatal care, Infant mortality, Babies with low birthweight

#### Obesity

Adult fruit & vegetable consumption, Adults who are overweight/obese, Students with no participation in physical activity, Adults engaging in moderate physical activity
