
Positive Youth Development

MISSION STATEMENT

Montgomery County is committed to creating a supportive, violence-free community for children, youth and families where young people are valued, treated with dignity and given opportunities to realize their full potential. The County and its partners are responding to the urgent need to reach out to support youth who are faced with challenges including gang involvement, poverty, and pressure to engage in risky behaviors. The methods used to respond to these challenges include positive youth development and gang intervention and suppression. Multiple agencies throughout the county are working actively together to engage youth and families positively and to prevent and address youth violence and gang activity.

Non-Departmental Account Community Grants

Community organizations augment and supplement government programs by providing services such as after-school programming, mentoring, leadership development, college prep, education on domestic violence, and internship programs to engage youth that are high risk, low income, new immigrants, and/or disabled. These community organizations are critical to an effective network of services and are often able to provide these services in a more cost-effective, culturally appropriate, and flexible way than County Government. They also are able to leverage community resources that may be unavailable to County Government. For details, please see Community Grants: County Executive in the Non-Departmental Accounts section.

PROGRAM DESCRIPTION

In December 2006, County Executive Isiah Leggett articulated a new vision for focusing on the issues of gang activity and youth violence based on the fact that gang crime and activity are more pronounced in specific locations in the County. This new vision also called for new efforts to encompass a broader cross-discipline approach for positive youth development rather than strictly gang prevention.

The Positive Youth Development/Gang Intervention and Suppression Initiative is a comprehensive response to the problems of children and youth exposed to trauma, gangs, and youth violence in the County, and reflects the commitment by the County to an approach that includes prevention, intervention, and suppression components. The Initiative's priorities serve to enhance existing approaches and services, and ensure the County's ability to respond to emerging trends and challenges utilizing culturally competent and evidence-based approaches.

The leadership of these efforts is provided by the Director of Health and Human Services, the Director of Recreation, the Chief of Police, along with key members of the County Executive's staff, Public Libraries, Correction and Rehabilitation, Montgomery County Public Schools (MCPS), the State's Attorney's Office, and community leaders. Work continues in the areas of suppression and enforcement, outreach and education, violence prevention, and deterrence.

The Positive Youth Development Initiative (PYDI) also includes multiple efforts to strengthen out-of-school time programming throughout the County. The Montgomery County Collaboration Council, the Department of Health and Human Services, the Department of Recreation, the Arts and Humanities Council of Montgomery County, Montgomery College, MCPS, and many other key partners are working together to address quality, to assess needs, to unify funding approaches, and to develop shared program approaches and outcomes. These efforts will result in the increase of programs and support for the youth of the County. In addition, many of the Health and Human Services PYDI Programs provide opportunities for children and youth to heal from trauma and utilize trauma informed, evidence-based curriculums accordingly.

Services benefiting County youth are incorporated in the general department program offerings as well as targeted services. These projects respond to multiple critical needs facing the County at this time and the desired outcomes of addressing trauma, reducing gang violence and crime, and promoting youth success and development. Below are some of the major County Government programs currently supporting County youth:

Department of Health and Human Services
