

#### **RECOMMENDED FY21 BUDGET**

\$131,231,547

#### **FULL TIME EQUIVALENTS**

114.56

#### MISSION STATEMENT

The mission of the Department of Environmental Protection (DEP) is to enhance the quality of life in our community by protecting and improving Montgomery County's air, water, and land in a sustainable way while fostering smart growth, a thriving economy, and healthy communities.

#### **BUDGET OVERVIEW**

The total recommended FY21 Operating Budget for the Recycling and Resource Management is \$131,231,547, an increase of \$15,497,722 or 13.39 percent from the FY20 Approved Budget of \$115,733,825. Personnel Costs comprise 10.06 percent of the budget for 86 full-time position(s) and two part-time position(s), and a total of 114.56 FTEs. Total FTEs may include seasonal or temporary positions and may also reflect workforce charged to or from other departments or funds. Operating Expenses account for the remaining 89.94 percent of the FY21 budget.

In addition, this department's Capital Improvements Program (CIP) requires current revenue funding.

### COUNTY PRIORITY OUTCOMES

While this program area supports all seven of the County Executive's Priority Outcomes, the following are emphasized:

A Greener County

Effective, Sustainable Government

# **INITIATIVES**

- Continues to implement initiatives and programs that resulted from the Strategic Plan to Advance Composting, Compost Use, and Food Scraps Diversion in Montgomery County. The department is currently implementing a composting program for major producers of food scraps, and in FY21 is both planning a pilot residential food scraps collection program as well as provide compost bins for interested homeowners throughout the County.
- 🔯 Partner with the Wheaton Urban District as well as the Mid-County Regional Services Center to address the lack of recycling bins in the Urban Districts. This partnership strives to increase the number of recycling bins along the streetscapes and

sidewalks to improve compliance with recycling mandates, set an example for others in the public and private sector to follow.

Reduce contamination and increase recycling, DEP is fully implementing a program that sends DEP field inspectors out to communities to monitor customers' blue bins prior to collection. Recycling staff provide educational materials to the target area, while personnel at the Materials Recovery Facility to sort material from the targeted area to determine if our efforts reduced contamination over time. This program yielded positive results in its pilot phase, showing a decrease in contamination and an increase in recycling.

#### INNOVATIONS AND PRODUCTIVITY IMPROVEMENTS

- Installed a new electric screening system at the Dickerson Compost Facility. This new system has no hydraulic lines or motors, consumes less diesel fuel, and is a projected to increase in LeafGro production and reduce screening costs. The department estimates a gain in production hours and an increase in LeafGro sales.
- \*\* Established a Safety and Health Work Group for the Transfer Station. The purpose of this work group is to coordinate with the contractors responsible for operations at the facility to address safety issues and initiatives across the site, and to make health and safety an integral part of standard operating procedures, cultures, and programs. Three positions are added to ensure County oversight of the property during all hours of operation as well.
- Relocate Department of Environmental Protection offices to Wheaton as part of a Countywide initiative to centralize government services to support business growth and development. This move was planned as part of the Wheaton Redevelopment Program, which will encourage private reinvestment in Wheaton through targeted, complementary public investment.

#### PROGRAM CONTACTS

Contact Patrice Bubar of the Recycling and Resource Management at 240.777.7786 or Richard H. Harris of the Office of Management and Budget at 240.777.2795 for more information regarding this department's operating budget.

### PROGRAM PERFORMANCE MEASURES

Performance measures for this department are included below (where applicable), with multi-program measures displayed at the front of this section and program-specific measures shown with the relevant program. The FY20 estimates reflect funding based on the FY20 Approved Budget. The FY21 and FY22 figures are performance targets based on the FY21 Recommended Budget and funding for comparable service levels in FY22.

### PROGRAM DESCRIPTIONS

### \*\* Administration and Support

This program provides support to the Department's Division of Resource Recovery and Management's operations, programs, and mission, and overall management and policy direction to the core professional services of budget and financial management. The program

 develops and evaluates CIP and operating budgets in a strategic and economically responsible manner for fair and equitable rate structures;

- maintains solid waste enterprise funds in a financially prudent manner through efficient financial management;
- assists with execution of procurement actions on a timely basis and at the best possible value;
- reviews and develops policies and procedures that strengthen internal controls; and
- identifies efficiencies across the department using metrics, quantitative and financial models, and forecasting tools to analyze the fiscal impact of proposed changes to the solid waste management activities.

The Department of Housing and Community Affairs provides staff to respond to resident complaints dealing with storage and removal of solid waste, illegal solid waste dumping, storage of unregistered or inoperable vehicles on private property, improper screening of dumpsters (particularly those in shopping areas), and control and regulation of weeds throughout the County.

Furthermore, "Clean or Lien" provides for the removal of dangerous or unsightly trash, perimeter grass, and weeds on properties which the owners have failed to maintain as required. Department of Environmental Protection staff in Energy and Environment Compliance Division provide surface and subsurface environmental compliance monitoring at all County solid waste facilities, and reviews reports air monitoring at the Resource Recovery Facility (RRF).

FY21 Recommended	6,630,374	39.16

# ₩ Disposal

This program provides for the operation of the Montgomery County Resource Recovery Facility (RRF). The RRF serves as the primary disposal facility for non-recycled waste generated in the County. Renewable energy in the form of electricity is generated and sold into the competitive energy market. This program also includes costs for related operations at the Transfer Station and for the transportation of waste from the Transfer Station to the RRF. Also, it provides for the operation of the receiving, processing, and shipping facility for municipal solid waste generated within the County.

In addition, the program provides for the rail shipment of ash residue from the RRF to Fulton Rail Yard near Richmond, Virginia, where it is unloaded and transported by truck to the Old Dominion Landfill, a contracted landfill where the ash is processed for further metals removal and recycling. Ash is beneficially reused as alternate daily cover and road base within the lined areas of Old Dominion Landfill. This program also provides for the shipment of non-processible waste, such as construction material and, if necessary, bypass waste, from the Transfer Station to either recycling facilities, rubble landfills, or other contracted landfills. It provides for the operation of a satellite drop-off site at the Poolesville Highway Services Depot and funds the proper disposal of household hazardous waste such as flammable products, insecticides, mercury, and reactive and corrosive chemicals. The materials are handled through the County's hazardous waste contractor and permitted hazardous waste management facilities.

The program maintains the closed Oaks Landfill in an environmentally sound and cost-effective manner in accordance with applicable State and Federal regulations. Mandated duties under this program include managing landfill gas through collection, flaring, and gas-to-energy systems, and maintaining leachate storage and pre-treatment facilities. This program also provides for the acceptance and treatment of waste generated by the cleanout of storm water oil/grit separators. Finally, the program maintains the closed Gude Landfill, including monitoring of air and water quality around the landfill. In addition, planning for remediation mandated by the Maryland Department of the Environment to minimize potentially adverse environmental impacts and the design of post-completion uses for the site that serve the community are part of this program.

Program Performance Measures	Actual FY18	Actual FY19	Estimated FY20	Target FY21	Target FY22
Number of customers dropping off household hazardous waste at the Transfer Station	125,160	113,985	119,684	125,668	131,952
Percent of total municipal solid waste sent to landfill	11.7%	9.7%	10.1%	10.1%	10.8%
Percent of non-residential municipal solid waste recycled	57.9%	58.5%	59.6%	60.6%	61.8%

FY21 Recommended	66,958,775	24.15

#### \*

#### Materials and Collection

This program provides for collection of refuse from single family residences in the southern parts of the County (Subdistrict A) and the funds to secure, administer, monitor, and enforce contracts with private collectors for collection of residential refuse and recyclables for the entire County. It also responds to the residents' service needs.

In addition, the program enforces the County's recycling regulations as they apply to single-family residences, and other waste generators, and enforcement of requirements of Chapter 48 of the County Code. It also supports solid waste program goals and ensures the success of recycling initiatives and progress to achieve the County's recycling goal. Also, the program provides for mandatory recycling and waste reduction for multi-family properties, for all businesses, and for broadly educating everyone living, visiting, and working in the County. Program efforts include technical support, assistance, education, outreach, and training.

It provides for the separation, processing, and marketing of recyclable materials at the Recycling Center (MRF). The MRF receives recyclable material collected under the County curbside collection program from all single-family residences as well as some materials from municipalities, multi-family properties, and non-residential properties that have established recycling

programs. The materials are then sorted, baled, and shipped to markets for recycling. The program also provides for the processing, baling, and shipping of the County's residential and some non-residential mixed paper and corrugated paper (cardboard) as well.

The processing, transporting, composting, and marketing of yard trim received by the County is also included in this program, including leaves received from the County's Leaf Vacuuming Program. Processing includes grinding brush to produce mulch at the Transfer Station and composting of all leaves and grass, sold wholesale as LeafGro in bulk and bagged forms.

The program promotes recycling of food scraps as part of the County's overall effort to increase recycling and to reduce the amount of food waste within the County. The program includes initiatives to recycle food scraps and other acceptable organic materials generated by the single-family residential, multi-family residential, and commercial sectors, through composting and/or other technologies.

Program Performance Measures	Actual FY18	Actual FY19	Estimated FY20	Target FY21	Target FY22
Number of site visits to provide recycling assistance to businesses	5,378	5,365	4,680	4,680	4,680

#### SOLID WASTE ENTERPRISE FUND

#### RATES AND FISCAL PROJECTIONS FOR FY21-26

#### Assumptions:

In FY21, the County Executive recommends the following solid waste system service charges:

Single-Family: \$223.26 Multi-Family: \$16.45 Non-Residential: \$611.48

(medium category)

- Refuse collection services are maintained at their current levels, with the annual collection charge increasing \$12.00 (12.6%) from \$95.00/ household in FY20 to \$107.00/household in FY21.
- The disposal fee for municipal solid waste received at the Transfer Station (known as the "Tipping Fee") and waste delivered in open-top roll-off boxes is unchanged at \$60 per ton, and \$70 per ton, respectively.
- Expenditures for certain programs, such as the Resource Recovery Facility, Transfer Station, and
  Out-of-County Haul are Base Systems Costs and calculated based on waste generation estimates
  for each sector. Expenditures for programs such as the Recycling Center, Recycling Collection, and
  Dickerson Compost Facility are Incremental Costs and calculated based on the cost of the
  incremental services received by each sector. Other expenditures are increased by inflation, except
  where contract or scheduled costs apply.

#### Notes:

- The refuse collection charge is adjusted annually to fund the approved service program and to maintain an ending net asset balance between 10 percent and 15 percent of
  resources at the end of the six-year planning period. Year-end fund balances in FY21-26 are projections only and will change with the change in the underlying
  assumptions (ie. growth in house counts, CPI, investment income yield) in future fiscal plans.
- 2. These projections are based on the Executive's recommended budget and include the revenue and resource assumptions of that budget. The projected future expenditures, revenues, and fund balances may vary based on changes to fee or tax rates, usage, inflation, future labor agreements, and other factors not assumed here.
- 3. The fund balance is negative in FY21-23 because of a \$4 million liability that results from a FY18 loan from the Disposal Fund. This \$4 million loan was executed to more gradually phase in the increases in collection contract costs. The cash balance of the fund remains positive across the six-year period. Refuse collection charges will be adjusted annually to achieve cost recovery, pay back the loan, and progress toward the fund balance policy target of between 10 percent and 15 percent.

#### FY21 Solid Waste Service Charges

- Purpose To fund solid waste management services provided to residents and businesses in Montgomery County through service charges to all entities that benefit from such services.
- Classification of Service Charges There are five basic categories of service charges:

Base Systems Benefit Charge - Paid by all entities to cover costs of system administration, historical debt service, waste reduction, and "stand-by" disposal capacity.

Incremental Systems Benefit Charge - Paid by entities based on sectorspecific services they receive (single-family homeowners pay for curbside recycling collection and processing, businesses pay for the commercial recycling program, etc.)

**Disposal Charges** - Paid as a service charge via the tax bill or at the Transfer Station by all entities who deliver solid waste to Montgomery County for disposal. At the Solid Waste Transfer Station, this charge is referred to as the "Tipping Fee" for accepting municipal solid waste for disposal.

**Leaf Vacuuming Charge** - Covers the cost of leaf vacuuming service provided in the Leaf Vacuuming District.

**Refuse Collection Charge** - Paid by homeowners who receive once weekly refuse collection service by County contractors.

 Implementation of Service Charges - Service charges are collected from the various sectors in the following manner:

	Base Systems Benefit	Incremental Systems Benefit	Disposal Charge	Leaf Vacuuming Charge	Refuse Collection Charge
Unincorporated Single-Family	Via tax bill	Via tax bill	Via tax bill	Via tax bill to those serviced	Via tax bill to those serviced
Incorporated Single-Family	Via tax bill	Not applicable	Charged at TransferStation	Not applicable	Not applicable
Unincorporated Multi-family	Via tax bill	Via tax bill	Charged at Transfer Station	Via tax bill to those serviced	Not applicable
Incorporated Multi-family	Via tax bill	Via tax bill	Charged at TransferStation	Not applicable	Not applicable
Unincorporated Non-Residential	Via tax bill	Via tax bill	Charged at TransferStation	Not applicable	Not applicable
Incorporated Non-Residential	Via tax bill	Via tax bill	Charged at Transfer Station	Not applicable	Not applicable

<sup>\*</sup> Note: Base Sysems Benefit Charges are set to cover County Base Systems Costs net of Disposal Charges.

<sup>\*\*</sup> With respect to Base and Incremental Systems Benefit Charges, this category includes dwellings in buildings of six or fewer households.

<sup>\*\*\*</sup> The Nonresidential rate multiplied by the total number of 2,000 square foot units of enclosed area equals the nonresidential charge.
