ANNUAL OPERATING BUDGET IMPACT (\$000)

DESCRIPTION

This project provides for the engineering of missing segments of sidewalk along the east side of US 29 between University Boulevard and Prelude Drive, as well as missing segments of sidewalk on the east side of Lockwood Drive between US 29 and New Hampshire Avenue. The scope includes right-of-way acquisition for and construction of 1,000 feet of missing sidewalk along the east side of US 29 between Lockwood Drive and Burnt Mills Avenue, 2,700 feet of missing sidewalk along the east side of US 29 between Lorain Avenue and the bridge over Northwest Branch, 700 feet of missing sidewalk links along the east side of Lockwood Drive between US 29 and New Hampshire Avenue and the overlay of the existing sidewalk on the west side of Lockwood Drive from New Hampshire Avenue to Oak Leaf Drive. The project includes the construction of retaining walls to reduce impacts to properties and vegetation adjacent to the public right-of-way and preliminary engineering for missing segments of sidewalk along the west side of US 29 between Burnt Mills Avenue and Southwood Avenue.

Service Area

Silver Spring

JUSTIFICATION

The project provides continuity of pedestrian movement along Lockwood Drive between US 29 and New Hampshire Avenue. Major pedestrian generators within the project limits include: connection to Montgomery Blair High School, commercial and business centers, several places of worship, an elementary school, a swim center, several bus stops, and numerous residences.

Plans and Studies

White Oak and Four Corners Master Plans. A pedestrian impact analysis has been completed for this project.

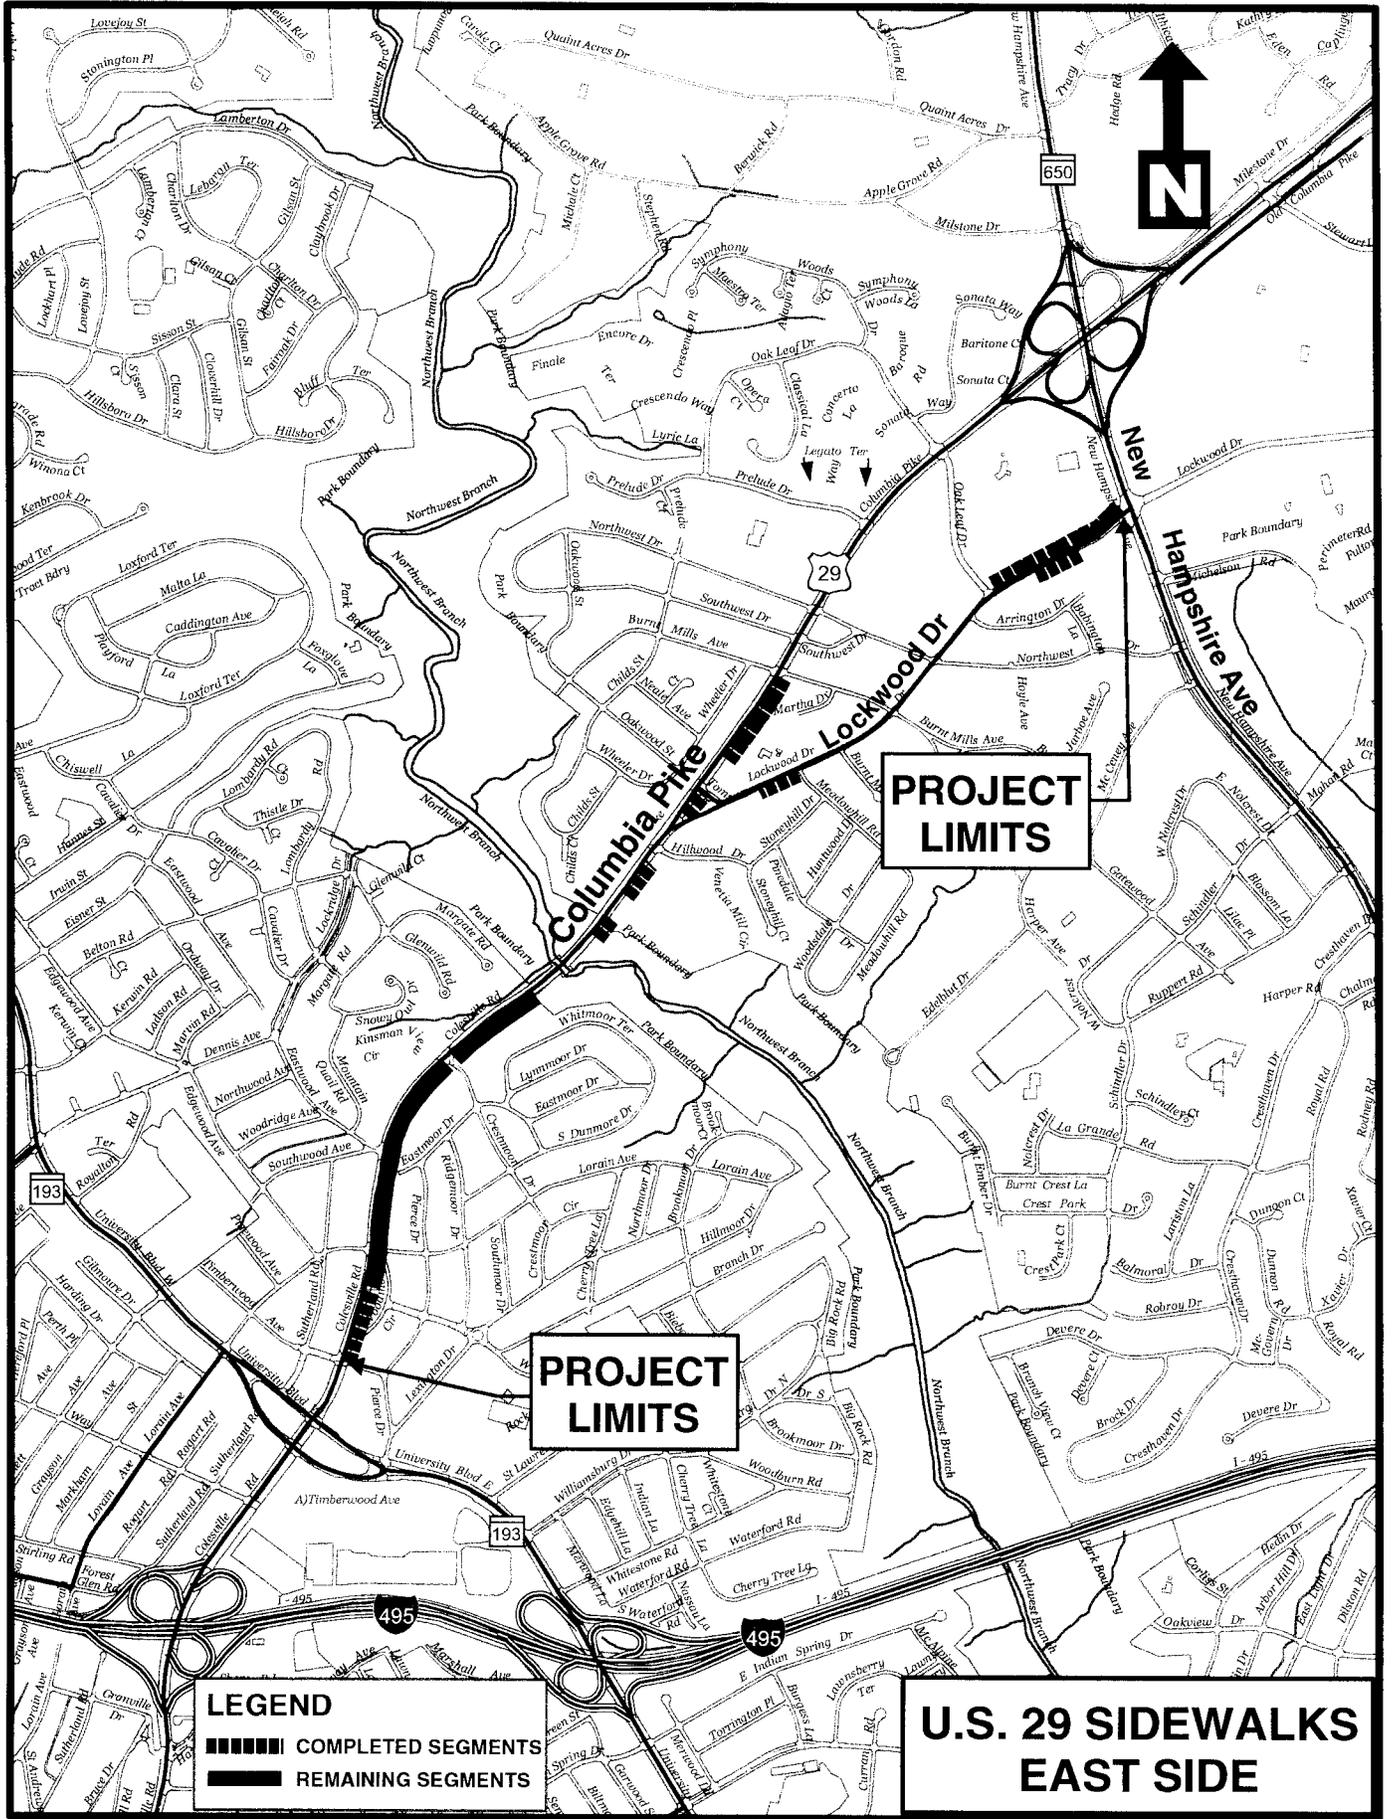

Cost Change

Cost increase is due to inflation.

STATUS

Final design stage.
