Net Impact				222	37	37	37	37	37	37

DESCRIPTION

The project provides funds to renovate the 36,000 sq. ft. lightweight steel frame tennis structure located in Wheaton Regional Park. The renovation includes a new fabric covering, with insulating lining, and HVAC and lighting system upgrades. In addition, the project funds replacement and expansion of the support facilities, including improved access to all six courts, enlarged lobby and pro shop, expanded locker rooms, possible weight room, and storage.

The main fabric covered structure is under renovation in FY08. The original "bubble" will be replaced with a new and better quality fabric, and the insufficient HVAC system and light fixtures will be upgraded. Site improvements will enhance aesthetics and improve drainage and maintenance.

Plans for the ancillary building include a second floor mezzanine to provide an alternative view of the tennis courts. The building will be accessed from the west by reconfiguring the existing walkway. The facility will house a large waiting/sitting space with a view of the tennis courts from the first floor and the mezzanine level, two staff offices, a cashier's office with space for a 'pro shop, restrooms with showers and lockers, a kitchenette, and a large storage space. Court access will be provided from the first floor lobby/sitting area.

Tennis bubble improvements in FY08. Ancillary building design in FY10-11, with construction in FY12-13.

COST CHANGE

Cost increase due to the addition of the ancillary building to the scope of this project.

JUSTIFICATION

The April 2006 Wheaton Tennis Facility Feasibility Study provides revenue and expenditure analyses for the facility, a technical assessment of the structure, fabric covering, and heating system, and outlines recommended alternatives and capital costs for renovation or replacement. The facility plan also proposes replacing the existing ancillary building with a new one at the same location.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.
- M-NCPPC asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
