<b>Total</b>	<b>7,035</b>	<b>0</b>	<b>0</b>	<b>7,035</b>	<b>260</b>	<b>1,000</b>	<b>1,000</b>	<b>1,850</b>	<b>2,925</b>	<b>0</b>	<b>0</b>

**DESCRIPTION**

This project develops and implements Storm Water Pollution Prevention Plans (SWPPP) for County maintenance facilities to comply with aspects of the Federal Clean Water Act National Pollutant Discharge Elimination System (NPDES) Notice of Intent (NOI). This project provides for the design and construction of structural covered areas to ensure appropriate storage of hazardous materials at County Depots. Work will also include replacement of the salt barn at the Colesville Depot.

**COST CHANGE**

Increase due to costs for replacement of the Colesville Depot salt barn and for upgrades to storage facilities at County Depots.

**JUSTIFICATION**

To comply with permit requirements, each of the County maintenance facilities must implement appropriate pollution prevention techniques to reduce contamination of storm water runoff. Covered areas are required under the NPDES for all hazardous products and liquid drums that are stored outside, to avoid the potential of drum deterioration, leakage and/or runoff contamination. Structural improvements of covered areas are scheduled at the Colesville Depot, Bethesda Depot, Poolesville Depot, Damascus Depot, and Seven Locks Depot as well as replacement of the salt barn at the Colesville Depot.

**APPROPRIATION AND EXPENDITURE DATA**

Date First Appropriation	FY09	(\$000)
First Cost Estimate	FY10	7,035
Current Scope		
Last FY's Cost Estimate		260
Appropriation Request	FY10	2,000
