Description

The Kennedy Shriver Aquatic Center opened in 1989. It consists of a 50 meter competitive swimming and diving pool, a 200 foot water flume, a separate leisure pool with two hydrotherapy areas and a diving tower. Since opening, the center has had problems related to the movement and condensation of moist indoor air through the building's exterior masonry walls, and roof leakage throughout the building. This project will: remove and restore existing window and louvers; remove the 4-inch masonry veneer block throughout the facility, and correct louvers, windows, and penetration flashings; install spray-applied wall insulation functioning as both air/vapor barrier system; install new exterior masonry veneer wall system; and replace the existing roof.

Location

5900 Executive Boulevard, Bethesda, Maryland

Estimated Schedule

Designed to start in FY18, and construction to start in FY19

Fiscal Note

Operating Budget Impacts will be estimated in a future CIP submission.

Coordination

Department of General Services, Department of Recreation, Office of Management and Budget, Bethesda/Chevy Chase Regional Services Center
