Description

Battery Lane Urban Park, 4960 Battery Lane, Bethesda, is a 1.9-acre existing park located at the edge of the Bethesda Central Business District. The approved facility plan includes the renovation of the following amenities in the park: tennis court, enlarged playground, walking path, basketball court, improved entryway, lighting, seating, drinking fountain, landscaping, and bike racks. The plan provides for better maintenance access.

Location

This project is approved for \$860,000 in state grants for the design and construction of a shared-use path along Needwood Road from the ICC to west of Lake Needwood. An FY14 supplemental appropriation request was approved for this project for the amount of \$1,930,000 (including \$860,000 in state aid and \$1,070,000 in matching County bonds). Funds for this project were originally programmed through Bikeway Program-Minor Projects (CIP #507596).

Estimated Schedule

Design FY17, construction beginning FY18.

Justification

The Woodmont Triangle Amendment to the Sector Plan for the Bethesda CBD (2006) lists Battery Lane Urban Park as a priority public amenity and facility. It recommends the completion of a facility plan for the park by a private developer in exchange for additional density under the optional development method of development. The park is one of the two major green spaces within the Woodmont Triangle area. The Facility Plan was approved by the Planning Board on July 30, 2009.

Other

Due to fiscal constraints and changes in recommendations for this park from the staff draft of the Bethesda Downtown Plan, the funding for the project has been reduced to only renovate the playground, which is well beyond its lifecycle for replacement. Redevelopment of the entire park is on hold. Parks staff will continue to coordinate with Planning staff in the implementation of an amenity fund recommended by the sector plan to receive financial contributions from future development projects within the sector plan area. These contributions may be used to off-set the Park and Planning Bonds in this project or for additional improvements to the park.

Disclosures

A pedestrian impact analysis has been completed for this project.

Coordination

Developer, Montgomery County Planning Department
