Cumulative Appropriation	3,680		
Expenditure / Encumbrances	3,663		
Unencumbered Balance	17		

PROJECT DESCRIPTION

This project provides for the design, renovation, and modernization of 71,500 SF of an outdoor pool complex. The project includes Bathhouse, Snack Bar, Main Pool with associated deck area, Leisure Pool with associated deck area, Wading Pool, to be replaced with a zero depth Spray Pad with associated deck area, and dry land playground, open lawns and a Filter Room located below the Main Pool Deck.

LOCATION

20151 Fisher Avenue, Poolesville

ESTIMATED SCHEDULE

Project is complete and re-opened in June 2016.

PROJECT JUSTIFICATION

The facility was built in 1991 and has had no renovation or upgrades since construction over 20 years ago. This facility has been diligently maintained and remains serviceable, but much of the original pool equipment and many of the finishes are beyond their useful life and have reached the point that standard care and repairs are not able to keep the facility operational. In some cases original equipment and configurations no longer comply with the most current code requirements or County standards. Finally, some of the original amenities are out of date when compared with other more recently completed or renovated County aquatic facilities, and considering the extent of work required to correct the shortcomings noted above, complete replacement appears warranted.

FISCAL NOTE

In FY19, transferred \$170,000 in GO Bonds to South County Regional Recreation and Aquatic Center, P721701.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Department of General Services, Department of Recreation, Department of Technology Services, Office of Management and Budget, Upcounty Regional Service Center
