Expenditure / Encumbrances	-		
Unencumbered Balance	900		

PROJECT DESCRIPTION

The Public Safety Data Systems Server Hardware is no longer supported by the Server team. As a result, the servers and the data storage must be replaced. These servers are used to support the Public Safety Virtual Private Network and provide services for Public Safety clients.

ESTIMATED SCHEDULE

Replacement will be completed in FY25.

PROJECT JUSTIFICATION

Some servers supporting the Public Safety Communication Center (PSCC) and Alternate Emergency 911 Communications Center (AECC) are nearly a decade old and component failure is increasing significantly. Replacement is critical to ensure uninterrupted service to the PSCC and AECC.

COORDINATION

Technology and Enterprise Business Solutions (TEBS), Department of Police, Montgomery County Fire and Rescue Service, Sheriff's Office, Department of Correction and Rehabilitation, Office of Emergency Management and Homeland Security
