PROJECT DESCRIPTION

This project provides the site remediation followed by design and construction for a new bus loop, a parking lot and a comfort station

for bus operators on the former Anderson property at the Boyds MARC station. The project will also include stabilization of the historic Hoyles Mill structure which is adjacent to the transit center.

LOCATION

15100 Barnesville Road, Boyds

ESTIMATED SCHEDULE

The site remediation was completed in FY22. Design for the bus loop and parking lot began in FY22 with construction completion in FY26.

PROJECT JUSTIFICATION

As part of its facility planning process, the County has been working towards the preliminary design of a future transit center in close proximity to the Boyds MARC station. The existing station is popular among commuters but parking is limited. In addition, providing Ride On bus service to the station is difficult due to the road network and lack of space for buses to turn around. In the summer of 2017, the County learned that the owners of the property adjacent to the MARC station (the Anderson Family) had listed the property for sale. In FY19, the County purchased the property. The County's acquisition of the Anderson property is supported by the Boyds Civic Association and the Maryland-National Capital Park and Planning Commission. As the design of the transit station continues to develop, the County intends to seek participation from the State of Maryland.

FISCAL NOTE

State aid includes a \$90,000 Maryland Heritage Areas Authority (MHAA) grant for developing a structural design for stabilizing Hoyles Mill in FY24, and \$500,000 awarded during the 2024 Maryland General Assembly session to fund stabilization work. FY24 funding switch of \$361,000 from G.O. Bonds to Impact Tax to reflect prior year actuals. FY24 supplemental in State Aid for the amount of \$45,000 for the first payment of the \$90,000 MHAA grant. FY25 funding switch of \$368,000 from G.O. Bonds to Impact Tax to reflect prior year actuals.
