PROJECT DESCRIPTION

This project funds a comprehensive and ongoing plan to replace key facility and site components based on an inventory of their age and conditions. A comprehensive inventory of all such components has been assembled so that replacements can be anticipated and accomplished in a planned and orderly manner. Facility components included in this project are code corrections, physical education facility/field improvements, school facility exterior resurfacing, partitions, doors, lighting, media center security gates, bleachers, communication systems, and flooring. An FY 2022 appropriation and amendment to the FY2021-2026 CIP was approved to continue this level of effort project and reinstate the expenditures removed from FY 2022 in the adopted FY2021-2026 CIP. An FY 2023 appropriation was approved to continue this project to address building systems, school facility exterior resurfacing, partitions, doors, lighting, bleachers, communication systems, and flooring; however, the County Council, in the adopted FY2023-2028 CIP, decreased

expenditures in FY23 and FY24, therefore, the number of projects to be completed will be reduced to align with the approved expenditures. An FY 2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this level of effort project to replace many building systems and components at various schools throughout the county. A list of summer PLAR projects can be found in Appendix K of the FY 2025 Educational Facilities Master Plan.
