Dear Jane: Our Thanks and Appreciation for your Assistance-ZTA 13-04 Zoning Ordinance-Revisions

On behalf of the Montgomery County Agricultural Advisory Committee-AAC, we want to sincerely thank you for everything you have done serving as the agricultural representative on the Zoning Advisory Panel. The Committee met last night and they voted unanimously to approve this letter of thanks and appreciation for your significant efforts.

Your involvement in representing the agricultural community as part of the Zoning Advisory Panel insured the interests of farmers were incorporated into the recommendations adopted by the Planning Staff and the Planning Board. As the number of farmers has declined over the years so has their voice at the table of government. Your representation has helped to improve the awareness of County Government officials to the needs of our farmers in the County.

As Chairman of the AAC, I want to thank you again for your time and dedication to help our County farmers with the important changes associated with the Zoning Rewrite Process.

Please let me know if there is anything we can do to assist you.

Sincerely,

David Weitzer, Chairman
