

The Montgomery County Dept. of Transportation (MCDOT) plans the following DUAL lane closures THIS WEEKEND AND NEXT WEEKEND – weather permitting -- on Rockville Pike between Woodmont Avenue and Wilson Drive (near NIH, Walter Reed, and the Medical Center Metro Station):

- Two NORTHBOUND lanes will be closed from 10:00 PM Friday, May 5 (TONIGHT) through late afternoon TOMORROW, Saturday May 6. (This changes the previously announced schedule that would have closed these lanes through 5:00 AM Monday the 8th.)
- As previously announced, two lanes TBD will be closed between 10:00 PM Friday, May 12 through 5:00 AM Monday, May 15 -- weather permitting. More details will be provided later.

These lane closures are required during construction of the Multimodal Crossing Project at the Medical Center Metro Station and Naval Support Activity Bethesda (NSAB). The Crossing Project will include a pedestrian underpass beneath Rockville Pike and deep elevators to the Metrorail mezzanine on the east side of Rockville Pike. Construction of the Crossing Project will continue through mid-2021

More information on the Crossing Project is available [here](#).
