

TRAVEL ADVISORY

MD 355 (Rockville Pike)

Locust Hill Road to Cedar Lane/West Cedar Lane

UPDATE RESURFACING ONLY BEGINS 11/30

Beginning Monday, November 30 (weather permitting), the Washington Suburban Sanitary Commission (WSSC) will begin resurfacing southbound MD 355 (Rockville Pike) from Locust Hill Road to Cedar Lane/West Cedar Lane. Weather permitting, the work should be complete by mid-December. Electronic message signs alerting motorists of the pending work have been placed along MD 355 in advance of the work zone. The resurfacing follows a broken water main that occurred on southbound MD 355 near the Cedar Lane/West Cedar Lane intersection last month.

TEMPORARY LANE CLOSURE/TRAFFIC PATTERN

To complete all resurfacing, WSSC crews will temporarily close the southbound right turn lane from MD 355 to West Cedar Lane and work behind concrete barrier. The work will create a temporary right turn/through lane on southbound MD 355 adjacent to the closed lane where crews will be work behind concrete barrier.

WSSC is also permitted to close an additional single right southbound lane on MD 355 during off-peak hours, weekdays, from 10 a.m. to 4 p.m. and overnight, Sunday through Thursday, 9 p.m. to 5 a.m.

Drivers should add extra commute time for the repairs and lane closures. Residents and travelers are advised that construction equipment can be loud and disruptive. WSSC asks for your patience as their crews work to complete the project. Motorists are urged to use caution through the work zone. For the latest real-time traffic information, please visit www.md511.org or call 1-855-466-3511.

QUESTIONS

Those with questions regarding this WSSC water main repair can contact WSSC weekdays between 7:30 a.m. and 7:00 p.m. at 301-206-4001, 301-206-9772 or toll free at 1-800-828-6439. For water emergencies only (water main breaks or sewer overflow only) customers can contact WSSC 24 hours a day at 301-206-4002 or EmergencyCallCenter@wsscwater.com.
