What's a separated bike lane?

4

- One-way separated bike lane
 - ▣ A separated bike lane is a bike lane that includes a physical barrier between the bikeway and traffic. The barrier can be a curb, parked cars, flexposts, planters, or a similar object.
 - ▣ Separated bike lanes offer more protection and less stress for all types of cyclists than a traditional bike lane.

Example of a separated bike lane. ➔

Learn more

5

- Attend a public meeting on Tuesday, February 2 to learn more about this project.
- The presentation materials will be uploaded to this website following the public meeting.
