

Montgomery County Fire and Rescue Service

Fire Chief's General Order

Rescinded on 7/22/15

NUMBER: 15-03
January 29, 2015

TO: All MCFRS Personnel

FROM: Acting Fire Chief Scott Goldstein

SUBJECT: eMEDS Implementation and Training

Effective April 1, 2015, MCFRS will implement the use of the MIEMSS supplied software package known as "eMEDS" to fulfill all EMS electronic patient care reporting needs. Therefore, on and after April 1, 2015, completing an eMEDS report will satisfy all MCFRS policy and General Order requirements to complete an ePCR.

All MCFRS IECS Certified personnel must complete the on-line eMEDs training module, available via the MCFRS Tech Training Website, by March 1, 2015. Failure to complete this training module may result in removal from the IECS list.

Please address any questions to Assistant Chief Barry Reid, EMS Section at Barry.Reid@montgomerycountymd.gov .
