MONTGOMERY COUNTY, MD**

INFORMATION BULLETIN

NUMBER: 09-11

DATE: June 29, 2009

SUBJECT: Pre-positioned Medical Supply EMS Cabinets in Metro Stations
Metro Fire/Life Safety Bulletin #2009-1

The Washington Metropolitan Area Transit Authority (WMATA) has installed Pre-positioned Medical Supply Equipment Cabinets at the end of platforms at selected Metro Stations.

Please refer to attached Metro Fire/Life Safety Bulletin #2009-01 for the specific line and station locations, and other pertinent information.

If you use any of the equipment from the cabinets or find any equipment missing, please notify one of the MCFRS Rail Liaison Officers.

Issued by: Assistant Chief Michael E. Nelson, Jr., Rail Liaison Officer

Prepositioned Medical Supplies (EMS Cabinets)

WMATA in conjunction with the Metropolitan Washington Council of Governments (COG) have installed prepositioned medical supply cabinets within the Metro system. These cabinets are stainless steel in construction similar to the ETEC cabinets. **See Fig. 1**

Figure 1

The Cabinets are marked with the Universal Symbol **"The Star of Life"** in the upper right corner of the cabinet.

Figure 2

The Cabinets are secured with master padlocks which are opened with the #27 key (**code 10L619**). This key also will unlock the ETEC carts throughout the system. Currently some members of the Metro Transit Police Department (MTPD) have been issued this key. Once an adequate supply of #27 keys becomes available they will be issued throughout the Metro Transit Police Department.

The cabinet contains 5 rescue skeds, 100 Chem light sticks and 100 mass casualty bandages. See Figure 2. The local jurisdiction may supplement the cabinets with whatever additional equipment that they deem necessary.

Figure 3

The Skeds need to be assembled by the first due units for the stations listed below. **See Figure 4**

Figure 4

The EMS cabinets were purchased for local jurisdiction fire departments to use during Metro Emergencies. If the Cabinet is utilized by Metro personnel they must ensure that any equipment is replaced or accounted for. Any personnel accessing the EMS cabinets must ensure that they are secured after they are utilized.

Note: The Addison Road Cabinet is located beyond the way gates into the portal area.

The cabinet locations are:
