Park Watch-Keeping your parks SAFE!

Professional thieves are looking for an easy target. Don't be one! Leave unnecessary items at home!

Tucking something under your seat when you get to a parking lot, makes you a target. It conveys the message that you have something valuable and tells a thief where it is.

Electronic key fobs make it easy for a thief to locate your car. Once inside your car, they can use the GPS to find your house and possibly your work location. Do not keep your car and house keys with your electronic key fob!

If you are a victim:

- Call the police immediately.
- Don't touch anything.
- Wait for the officer to arrive.

- Keep valuables out of view!
- Close your windows
- Lock your doors
- Use visible locking devices and alarm indicators
- Set emergency brake
- Place valuables in trunk prior to reaching the park
- Don't hide a spare key on your car

Don't Be a victim!

Thieves target-

- G.P.S. units
- Wallets
- IPODs/MP3 players
- Cell Phones
- Loose change/cash
- Briefcases
