Montgomery County Council Approves Restrictions on Use of Lawn Pesticides

The Montgomery County Council today approved amended Bill 52-14 that bans the use of pesticides on County-owned and private lawns, becoming one of the few jurisdictions in the nation to have such restrictions. One of the amendments to the original bill will allow the County's Department of Parks to continue to use pesticides on playing fields as part of an integrated pest management program and requires the department to develop a plan that would lead to maintaining fields without pesticide use by 2020. The department will conduct a pilot program in the interim period to study the impact of maintaining fields without using pesticides.
