**[EXTERNAL EMAIL]**

Good morning!

I would like to submit additional images to help support the findings and design style of my neighborhood, which reflects a mid-century contemporary aesthetic. During my first hearing, I was not able to adequately show the surrounding neighborhood or demonstrate that my design is consistent with the existing context.

In fact, the proposed design takes direct cues from neighboring homes and was intentionally developed to fit within the established character of the area, rather than stand out from it.

Thank you for your time and consideration.

Jason Teves  
Case A-6934
