Case No. 1587

PETITION OF HILLANDALE MEDICAL CORP.
(Hearing held June 25, 1964)

OPINION OF THE BOARD

This proceeding is on a petition for a special exception under Section 104-29(q-1) of the Zoning Ordinance (Chap. 104, Mont. Co. Code 1960, as amended) to permit the construction and operation of a medical clinic. The subject property contains 3.8328 acres in a tract called "Contention", located at 5401 West Cedar Lane, Bethesda, Maryland, in an R-60 Zone.

The petitioner presented expert testimony to show that:

1. All of the applicable setbacks, height limitation, percentage of building coverage and other requirements of the Ordinance had been met in the development of the site plan.
2. The buildings for the proposed doctors park will be colonial in design and will resemble town houses to insure compatibility with the neighborhood.
3. Extensive landscaping will be done both around the building and to accommodate screening from the adjacent properties. The proposed screening will consist of a privit hedge, white pines and other flowering shrubs and trees.
4. The only vehicular entrance will be on Cedar Lane which is a major collector street and that no problems will result from the traffic movements generated by the proposed facility.
5. Based on noise studies of the surrounding area the proposed use will not create a nuisance because of additional physical activity.
6. A real estate expert had made careful studies of other similar uses and these studies show no devaluating affect on the surrounding residential property.
7. An expert planning consultant had carefully reviewed the plans for the proposed use and that every effort had been made to preserve the existing trees on the subject property and that the plan would provide maximum protection to the surrounding neighbors. He testified further that in his opinion the proposed use would be beneficial to the neighborhood in that it commits the ground to a dignified and non-commercial appearing activity.
8. That the applicant will provide 315 off-street parking spaces which are more than adequate to meet the parking requirements for the proposed use.

There was considerable opposition expressed at the hearing by both the citizens association and by several adjoining neighbors. The opposition was directed to the point that the proposed use was too dense and little "green space" would remain after completion of the development.

Residents of Camberley Avenue were particularly concerned about the possible nuisance from noise and physical activity in the parking lot which closely adjoined their homes.

Based on the evidence and testimony the Board must conclude that the applicant clearly has met the burden of proof as set forth in the Ordinance to justify the proposed special exception. The Board however is quite concerned about the unusual shape of the residential lots abutting the subject property at the northeast corner. The northeast corner of the proposed site is only approximately 13 feet from Camberley Avenue with single family lots abutting both the east and north sides. Accordingly, under the authority set forth in paragraph 104-28(a) of the Zoning Ordinance the Board imposes the following conditions:

That portion of the parking lot and access drives shown on the site plans Exhibit No. 3, in the northeast corner of the property that fall within the triangle created by extending 125 feet from the northeast corner along the property lines in a westerly and southerly direction and then connected by a straight line shall be eliminated and the adjacent area of the parking facility be re-arranged to preserve the circulation of traffic as shown on Exhibit No. 3.

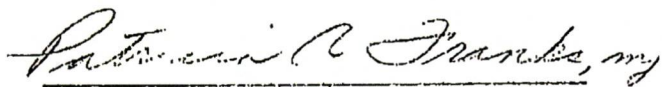

Subject to the condition set forth above the application for special exception is hereby granted in accordance with the exhibits and testimony set forth at the hearing.

The Board adopted the following Resolution:

"Be it Resolved by the County Board of Appeals for Montgomery County, Maryland, that the opinion stated above be adopted as the Resolution required by law as its decision on the above-entitled petition."

The foregoing Resolution was proposed by Mr. Page F. Hopkins, Vice Chairman, and concurred in by Mrs. Elaine Lady, Messrs. J. Hodge Smith, Chairman, Bernard D. Gladhill and Henry J. Noyes, constituting all the members of the Board.

I do hereby certify that the foregoing Minutes were officially entered upon the Minute Book of the County Board of Appeals this 21st day of July, 1964.

Clerk to the Board

NOTE: Please see Section 104-24(c) of the Ordinance regarding the 12-months' period within which the right granted by the Board must be exercised.

This opinion sent to all persons who received notice of the hearing.

Case No. CBA-1587-A

PETITION OF GEORGETOWN PARK ASSOCIATES LP

OPINION OF THE BOARD

Hearing held December 19, 2001

Effective date of Opinion: February 28, 2002

Case No. CBA-1587-A is an application to modify a special exception for a Clinic pursuant to Section 59-G-2.14 of the Zoning Ordinance to permit an existing shed on the property. Board's review is limited to those aspects of the special exception which Georgetown Park Associates LP (the applicant or the Clinic) seeks to modify.

Steven Karr, an architect, testified on behalf of the applicant. There was no opposition to the proposed modification.

Decision of the Board: Special Exception Modification **Granted**,
Subject to conditions enumerated below.

EVIDENCE PRESENTED TO THE BOARD

1. The subject property consists of approximately 3.87 acres and is located at 5401 West Cedar Lane, Bethesda, Maryland in the RE-60 zone. The site has approximately 400 feet of frontage along West Cedar Lane.
2. The surrounding neighborhood contains a mixture of residential and institutional land uses. Adjoining the subject property to the east and northeast are single-family homes in the R-60 zone. Adjoining the site to the northwest is the American College of Cardiology which operates by special exception in the R-60 zone. Adjoining to the west is a Knights of Columbus facility in the R-60/TDR zone and a WSSC water tower in the R-60 zone. Confronting to the south, across West Cedar Lane, is the National Institutes of Health campus in the R-60 zone.
3. The medical Clinic has operated by special exception on the property since 1964. Its offices are located in three rows of colonial style buildings, each two stories in

- height. A large parking facility serves the Clinic with one entrance off West Cedar Lane.
4. The applicant seeks to modify the special exception to include an existing accessory storage building (a shed) which is used for maintenance equipment and supplies. The shed protects grounds maintenance equipment, including lawn mowers, snow blowers, wheelbarrows, and other tools from the elements. It also stores grounds maintenance supplies including grass seed and bagged mulch as well as supplies for the maintenance and incidental repairs of the buildings. Two maintenance employees currently on site will utilize the building as necessary.
 5. The shed is 12 feet wide and 14 feet long and has a height of nine feet eight inches. It is painted green in color with a gray asphalt roof, and is depicted in photos submitted by the applicant (Exhibit 5b). It is located at the northwest corner of the existing paved parking facility, has a footprint of approximately 300 square feet, and is depicted in the site plan submitted by the applicant (Exhibit 4b). The shed has the same setbacks as the parking facility. It is 10 feet from the western property line and 22 feet from the northern property line. The shed is screened by painted masonry wall on the northern and western edges of the paved area, and by dense trees.
 6. The shed does not increase the intensity of the Clinic's activities, nor does it generate any significant additional traffic.
 7. The Bethesda-Chevy Chase Master Plan covering the property supports the existing R-60 zone for the subject property and medical clinics are allowed by special exception in that zone. The property is shown on the Master Plan as containing an office use.
 8. The Maryland-National Capital Park and Planning Commission (M-NCPPC) reviewed the proposed modification of the special exception and recommended approval of the application.
 9. M-NCPPC Technical Staff determined that the shed is exempt from the requirements of the Montgomery County Forest Conservation Law (Chapter 22A of the County Code) because the original special exception use was approved prior to July 1, 1991 and because the modification does not result in the clearing of more than 5,000 square feet of forest.

FINDINGS OF THE BOARD

GENERAL STANDARDS

The proposed modification meets the requirement set forth in Section 59-G-1.2.1, specifically:

59-G-1.2.1. Standard for evaluation. A special exception must not be granted absent the findings required by this Article. In making these findings, the Board of Appeals, Hearing Examiner or District Council, as the case may be, must consider the inherent and non-inherent adverse effects of the use on nearby properties and the general neighborhood at the proposed location, irrespective of adverse effects the use might have if established elsewhere in the zone. Inherent adverse effects are the physical and operational characteristics necessarily associated with the particular use, regardless of its physical size or scale of operations. Inherent adverse effects alone are not a sufficient basis for denial of a special exception. Non-inherent adverse effects are physical and operational characteristics not necessarily associated with the particular use, or adverse effects created by unusual characteristics of the site. Non-inherent adverse effects, alone or in conjunction with the inherent effects, are a sufficient basis to deny a special exception.

The existing shed is screened by existing painted masonry walls and dense trees. Therefore it will have no adverse effects on nearby properties and the general neighborhood.

The proposed modifications meet the general conditions set forth in Section 59-G-1.21, specifically:

- (a) *A special exception may be granted when the Board, the Hearing Examiner, or the District Council, as the case may be, finds from a preponderance of the evidence of record that the proposed use:*

- (1) *Is a permissible special exception in the zone.*

Because the shed is part of the Clinic special exception permitted in the R-60 zone, it is permissible in the zone.

- (2) *Complies with the standards and requirements set forth for the use in Division 59-G-2. The fact that a proposed use complies with all specific standards and requirements to grant a special exception does not create a presumption that the use is compatible with nearby properties and, in itself, is not sufficient to require a special exception to be granted.*

The Clinic with a shed complies with the standards and requirements set forth in Section 59-G-2.14 of the Zoning Ordinance.

- (3) *Will be consistent with the general plan for the physical development of the District, including any master plan adopted by the commission. Any decision to grant or deny special exception must be consistent with any recommendation in an approved and adopted master plan regarding the appropriateness of a special exception at a particular location. If the Planning Board or the Board's technical staff in its report on a special exception concludes that granting a particular special exception at a particular location would be inconsistent with the land use objectives of the applicable master plan, a decision to grant the special exception must include specific findings as to master plan consistency.*

Because the Clinic with a shed is consistent with the Bethesda-Chevy Chase Master Plan it is consistent with the general plan for the development of the district..

- (4) *Will be in harmony with the general character of the neighborhood considering population density, design, scale and bulk of any proposed new structures, intensity and character of activity, traffic and parking conditions, and number of similar uses.*

Because approval of the shed will not increase the number of medical practitioners or patients, and because the shed will be used only by two existing maintenance employees, it will not affect population density or intensity of activity, traffic or parking. The shed is relatively small and is situated in an unobtrusive corner of the subject property and its design is in harmony with the general character of the neighborhood. The shed complies with all applicable height and lot coverage restrictions, hence the scale and bulk of the modification is also in harmony with the general character of the neighborhood.

- (5) *Will not be detrimental to the use, peaceful enjoyment, economic value or development of surrounding properties or the general neighborhood at the subject site, irrespective of any adverse effects the use might have if established elsewhere in the zone.*

Approval of the modification will be subject to the submitted site plan and landscaping plan and the modification will not be detrimental to the use, peaceful enjoyment, economic value or development of surrounding properties or the general neighborhood, and will cause no objectionable noise, vibrations, fumes, odors, dust, glare or physical activity

- (6) *Will cause no objectionable noise, vibrations, fumes, odors, dust, illumination, glare or physical activity at the subject site, irrespective of any adverse effects the use might have if established elsewhere in the zone.*

The proposed modification will have none of these effects.

- (7) *Will not, when evaluated in conjunction with existing and approved special exceptions in any neighboring one-family residential area, increase the number, intensity, or scope of special exception uses sufficiently to affect the area adversely or alter the predominantly residential nature of the area. Special exception uses that are consistent with the recommendation of a master or sector plan do not alter the nature of an area.*

The modification will not adversely affect the residential nature of the area.

- (8) *Will not adversely affect the health, safety, security, morals or general welfare of residents, visitors or workers in the area at the subject site, irrespective of any adverse effects the use might have if established elsewhere in the zone.*

The modification will not have any effect on the area or its residents, and will not adversely affect the health, safety, security, morals or general welfare of residents, visitors or workers in the area.

- (9) *Will be served by adequate public services and facilities including schools, police and fire protection, water, sanitary sewer public roads, storm drainage and other public facilities.*

The modification will not require any additional public services or facilities for the subject property.

SPECIFIC STANDARDS

The modification complies with the standards and requirements set forth for the use in Section 59-G-2.14, specifically:

- (a) *Development standards are as follows:*
- (1) *Minimum lot area: 40,000 square feet.*
 - (2) *Minimum frontage: 200 feet*

- (3) *Minimum setback from all property lines: 40 feet, except that the setbacks may be reduced if found to be compatible within an historic district as set forth in Sec. 59-A-6.23.*
- (4) *Maximum building height: as specified in the zone.*
- (5) *Maximum lot coverage: 15 percent.*

The existing shed does not affect the conformance of the existing medical Clinic with the development standards.

- (b) *The property must front on and have direct access to a public road built to arterial or higher standards: except that access to a corner lot may be from an adjoining primary street, constructed to primary standards, if the Board finds this access to be appropriate and not detrimental to existing residential uses on that primary street.*

The existing shed does not affect the existing access to the Clinic from West Cedar Lane.

- (c) *Any accessory service that is part of the clinic, including a laboratory or pharmacy for use by patients of medical practitioners in the clinic, must comply with the following standards:*
 - (1) *Direct access from the street is prohibited; any access must be from an interior lobby or hallway or from a parking area that does not front on a public street.*
 - (2) *Hours of operation must be no earlier and no later than those of medical practitioners in the clinic.*

Accessory services connected with the special exception will not be affected by the existing shed.

- (d) *Adequate parking must be provided on site in accordance with the requirements for a medical or dental clinic, as stated in article 59-E, and further limitations, if any, prescribed by the Board.*

The existing shed does not affect the provision of adequate parking on site.

- (e) *The Board may limit hours of operation, numbers of practitioners and employees, and the number, character and extent of accessory services.*

The existing shed does not result in any changes to the hours of operation, numbers of practitioner, employees, or provisions of accessory services

- (f) *In approving a modification of the petition as previously approved, the board must find that the use at the location in question will not be detrimental to the surrounding residential community because of traffic, noise or physical activity and will not adversely affect the present character or future development of that community as a residential area.*

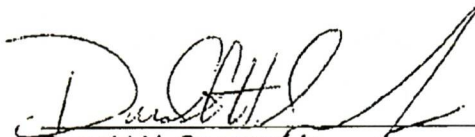

Because the shed is relatively small, is located on an unobtrusive corner of the property, and is adequately screened, neither the design nor the location of the shed will result in any adverse effect on the nearby residential area.

The Board **grants** the application for the proposed modification to the special exception, subject to the following condition:

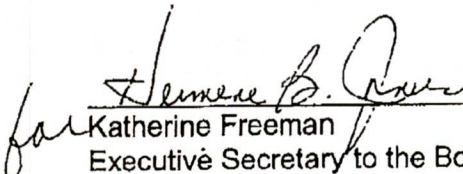

1. Petitioner shall be bound by all of its testimony and exhibits of record and the testimony of its witnesses, to the extent that such testimony and representations are identified in the Board's opinion granting the special exception modification.

On a motion by Allison Ishihara Fultz, seconded by Angelo M. Caputo, with Donna L. Barron, Louise L. Mayer, and Donald H. Spence, Jr., Chairman in agreement, the Board adopted the following Resolution.

CASE NO. CBA-1587-A

PETITION OF GEORGETOWN PARK ASSOCIATES

RESOLUTION TO RE-OPEN THE RECORD

(Resolution Adopted September 17, 2003)
(Effective Date of Resolution: February 5, 2004)

On August 4, 2003, the Board of Appeals received a copy of a building permit and wall check for construction of a storage shed on the special exception property. The Board of Appeals granted Case No. 1587 to Hillandale Medical Corporation on July 21, 1964, to permit the construction and operation of a medical clinic. On August 8, 2001, the Board approved transfer of the special exception to Georgetown Park Associates, L.P and denied an administrative modification of the special exception. On February 28, 2002, the Board granted Case No. CBA-1587-A, a modification of the special exception to permit a storage shed on the subject property.

The subject property is approximately 3.87 acres located at **5411, 5413 and 5415** West Cedar Lane, Bethesda, Maryland in the RE-60 Zone.

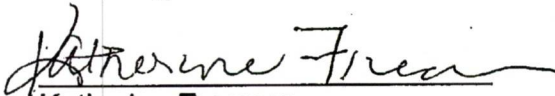

The Board of Appeals considered the building permit and wall check at its Worksession on September 17, 2003. The Board finds that there is no action required other than to receive the information into the special exception record. Therefore, on a motion by Angelo M. Caputo, seconded by Allison Ishihara Fultz, with Louise L. Mayer and Donald H. Spence, Jr., Chairman in agreement:

BE IT RESOLVED by the Board of Appeals for Montgomery County, Maryland that the record in Case No. CBA-1587-A, Petition of Georgetown Park Associates L.P, is re-opened to receive the building permit and wall check submitted to the Board on August 4, 2003.
