COMMENTS:

There was a substantiated case of staff on inmate abuse that is currently being prosecuted by the States Attorney.

There were two allegations in December where the victim did not know if the alleged perpetrator was another inmate or a staff member. There was no evidence and both cases were unfounded

There was a report of an incident that alleged it occurred in 2014 of an inmate on inmate abuse. It was fully investigated and the reported victim refused to co-operate with the investigators. The case was unfounded.
