

To whom it may concern,

I am a small business owner providing health and wellness services for residents in Montgomery County.

First, I would like to thank you for the many years of supporting recreation programs and for understanding that access to quality recreation is critical for quality of life and social equity in our communities. Over the last two years, we have been able to double the number of residents served in the county helping us to scale up the business resulting in a greater impact in the community.

We totally understand the potential for financial challenges ahead, however, please understand that recreation is critical for the mental and physical well-being of our community and we are going to need these services now more than ever.

We are already seeing the negative effects of social isolation, stress, boredom, inactivity and the list goes on. Recreation centers/ programs has been key to keeping our communities connected and are critical for building positive social capital.

Please recognize how important this department is to the health of our community and please do everything you can to maintain the current level of service our residents deserve.

Thank you for your time and for your support.
