The topic is collective bargaining negotiations with County employee unions.

Mr. Katz expressed appreciation to Ms. Navarro who agreed to serve as the Council liaison to the collective bargaining negotiations.

(1) UPDATE/DISCUSSION - Status of Special Appropriations

Ms. Michaelson, Council Executive Director, and Mr. Madaleno, Director, Office of Management and Budget (OMB), participated in the discussion.

Ms. Michaelson stated that in the past two months, the Council has appropriated approximately $50 million in special appropriations related to COVID-19, in amounts ranging from $100,000 to several million dollars.

Mr. Madaleno reviewed the status of COVID-19 special appropriations, as shown in the chart included in the staff report, and said the Executive Branch is working
to get money and supplies, including personal protective equipment (PPEs), to those who need it as quickly as possible.

Ms. Navarro said Council staff would be meeting with Mr. Madaleno regarding the disposition of grant funds. She commented that there have been reports of scammers telling residents they must provide their personal information before funds would be made available and cautioned that residents should not give out their personal information.

Mr. Friedson requested a cumulative running list of appropriations (total authorized and amount spent to-date) be provided to Councilmembers on a weekly basis. He urged the County Executive to keep the lines of communication open with the Council so that needed legislation may proceed quickly, and said a plan should be developed collaboratively regarding the spending of federal funds toward COVID-19 expenses. Ms. Michaelson indicated a draft resolution regarding the expenditure of funds would be shared with Councilmembers for review before it is introduced.

Mr. Rice requested that the chart showing special appropriations include the date the resolution was approved, and that causes of delays, such as staffing or legislative issues, be identified so that funds can be distributed quickly.

Mr. Katz requested a column be added to the chart to show the planned rollout date of the special appropriation and the person/group responsible, and a listing of how much of the $183 million in federal funds received have been used toward reimbursable COVID-19 expenses and the remaining amount of available funds. Mr. Madaleno stated that they are aggressively pursuing other sources of federal funds for COVID-19-related expenses.

Mr. Albornoz suggested looking at potential technology solutions to develop a platform to allow employees to be more productive, noting recent bandwidth and other issues that have arisen with people working from home.

Mr. Jawando suggested a separate document on distribution of grant funds be provided to include information on the type of business or industry, location (zip codes) and whether it is minority or woman-owned.
