

Comments for 7/21 [County Council Meeting](#)

Re: “Enhanced Covid Testing”

As residents of Montgomery County, we thank you for taking action to make free testing available. Please implement testing by identifying and following recommended approaches that are tailored to communities disproportionately impacted by COVID-19. We support Councilmember Navarro’s added paragraph:

The Executive must analyze each part of the plan from a health equity lens to ensure the critical infrastructure and the necessary capacity is in place to successfully provide quality and equitable health services to our diverse communities in a linguistically and culturally responsive manner.
