

November 3, 2020

I, Erin Nerenberg of Rockville, Maryland, hereby testify that I do not agree with Executive Order 112-20, Covid-19 Local Order as it pertains to childcare capacity at 50%. This would greatly affect my family as my husband works out of the home and I am an essential worker. I am also in my second trimester of pregnancy.

My two-year-old daughter is extremely safe in our trusted daycare facility. We have never had a serious sickness and I attest this to the careful and clean environment my daycare provides. We consider our daycare an extension of our family and I know the other families feel the same. We are in constant communication on keeping our children and families as safe as possible. I believe my daycare is the best place for my daughter to be as it excellent for her development. She is excelling in language and interactive play. Our teachers are able to work with her more closely than if she was home with me while I work.

Please, I beg that this does not pass as it would put a significant strain on my and my daughters' wellbeing and could very well force me out of the workforce.

Thank you,

A handwritten signature in cursive script that reads "Erin Nerenberg".
