

I am writing on behalf of all of my friends, family, colleagues, and any one with common sense:

PLEASE enact Executive Order 122-20. The pandemic is far from over, and premature reopenings and restriction lifting will lead to more death and suffering. In addition to deaths and cases alone, we must consider disability-adjusted life years that will come from this, which we don't even know yet! Any honorable public health worker will agree that these restrictions are necessary. Please do not bend to inappropriate pressures! People DO NOT NEED to go bowling, or to escape rooms, or to dinners out with friends. People NEED to stay at home and protect themselves and others.

Show the citizens in your county that you care about them more than you care about money and politics.

I am begging you,  
Melinda S.
