Dear Councilman Katz and Montgomery County Council

I wish to make my thoughts known regarding the 2/4/2021 pending vote regarding the Removal of School Resource Officers from our Public Schools.

I believe it is a mistaken path. Those who will be hurt will be the ones most in need of the protection of these “Resource Officers” ... our children — specially the girls and the special-needs kids of all demographics.

I am sorry you are considering this legislation and ask that you think twice about what is motivating the action.

Thank you for your kind attention,

*Susan Baker*
