COUNCIL SITTING AS BOARD OF HEALTH

A. Update - Novel Coronavirus (COVID-19) and County Public Health Planning

Participating in the discussion were Dr. Gayles, County Health Officer and Chief of Public Health Services, Dr. Bridgers, Deputy County Health Officer, Department of Health and Human Services (DHHS); and Dr. Stoddard, Director, Office of Emergency Management and Homeland Security (OEMHS).

Dr. Gayles reported that overall numbers of new COVID-related cases and hospitalizations remain low, with the majority of new cases being in those aged 20 to 29 and 30 to 39 and unvaccinated. Currently, 81.4% of the County’s eligible population is fully vaccinated, and they are working with community partners to expand vaccine availability in highly impacted communities. The County has consolidated its vaccination sites to three locations: Dennis Avenue in Silver Spring, the Upcounty Regional Services Center in Germantown, and the Rockville campus of Montgomery College. Dr. Gayles commented that no timeline has been established for vaccination of children under age 12. He encouraged everyone eligible to get the vaccine. Current federal guidance indicates that boosters are not necessary for those who received the Pfizer or Moderna vaccines. Dr. Bridgers added that testing and vaccinations are ongoing and do not require appointments, and residents should check the County’s website for additional information and to schedule an appointment if desired. Dr. Stoddard noted that the Germantown mass vaccination site administered 75,000 vaccines. He reminded residents that 99.2% of current fatalities are among the unvaccinated, that the vaccine is 98% effective against preventing severe illness, and that it is anticipated that the Delta variant of the virus would become predominate in the State and across the country.

Dr. Gayles noted that any mandate to require students to be vaccinated would be set by the State Board of Education. He said it is in the best interest of those unvaccinated to wear face coverings, noting that new strains of the virus are more contagious, but that face coverings should not only be associated with COVID as they help lessen seasonal allergies and reduces the number of flu cases.

(3) COVID Recovery Update

Participating in the discussion were Ms. Michaelson, Council Executive Director; Dr. Stoddard; Dr. Crowel, Director, and Ms. Harris, Chief, Services to End and Prevent Homelessness, DHHS; Ms. Bruskin, Executive Director, Montgomery County Food Council; and Mr. Hodge, Food Security Task Force, DHHS.
Dr. Stoddard stated that the COVID after-action process will be the largest in the County’s history, to include lessons learned and a focus on six key areas: government services, housing, economic revitalization, health and human services, education and youth, and food resilience. The panel provided updates on the intermediate recovery framework, food assistance programs, the eight service hubs and partnerships with non-profit organizations to provide food and services; the rental assistance program, which is still open; behavioral health efforts; steps taken to address systemic equity and disparity issues; and policy issues that require legislative changes as a result of COVID.

Councilmembers commented on the need to shift outreach and community engagement efforts to reach the most highly impacted communities and to test communication systems to ensure their efficacy; the need to emphasize innovation and collaboration with the State and local agencies; the need for feedback from the business community regarding economic issues; the need to revitalize the workforce and invest in workforce development for low-skilled individuals and those reentering the workforce; and the need for an equitable recovery and focus on where harm is most pronounced, including acknowledging the impact of COVID on women in the workplace and childcare issues.

Noted that the Governor’s State of Emergency has not been lifted and is currently in place until August 12, which means that under the COVID-19 Renter Relief Act, rent may not be raised over the rent guidelines until 90 days after the State of Emergency has been lifted.

(4) American Rescue Plan Act (ARPA) Process Update

Participating in the discussion were Mr. Smith, Legislative Analyst; and Mr. Howard, Council Deputy Director.

Mr. Smith explained that the County is expected to receive $204 million in ARPA funding in two tranches - one was received in June 2021 and the second is expected in May or June of 2022. The funds can be used to target public health or negative economic impacts of the pandemic, to provide premium pay to eligible essential workers, the provision of government services to the extent of the reduction in revenue due to the public health emergency, and to make necessary investments in water, sewer, or broadband infrastructure. The Council has already approved the use of $127.69 million in ARPA funding, which accounts for 63 percent of the total ARPA funding, with $76.41 million in unallocated ARPA funding remaining.

Mr. Friedson commented that the Council has authorized or appropriated $127.6 million in ARPA funds FY21 and FY22, but the anticipated funds from the second tranche have not been received. He questioned whether current expenses should be funded with anticipated ARPA funds and requested staff to provide information on the spending policies of other jurisdictions and continuing
information on Federal Emergency Management Agency (FEMA) reimbursements, noting the Council’s oversight role.

Supported the suggestion of Ms. Navarro that the racial equity and social equity framework set forth in the July 12, 2021, memorandum from the Office of Legislative Oversight (OLO) be used as a framework to guide the ARPA funding process to address the extraordinary need and inequity issues in the County.

Mr. Riemer commented that he wants funding allocated to provide incentives to residents for getting vaccinated against COVID-19.

Mr. Rice, noting a recent discussion at the National Association of Counties (NACo) conference, suggested that the Council consider using the lost revenue calculation as a strategy to backfill funding gaps, noting that those funds would allow flexibility and not be restricted to designated uses. He supported setting aside some ARPA funds for the FY23 Working Families Income Supplement.

(5) **CONSENT CALENDAR**

Approved the following consent calendar items listed below.

Mr. Riemer made the motion, which carried without objection.

Adopted **Resolution 19-943**, approving the disposition of 5830 and 5834 Riggs Road, Gaithersburg.

Mr. Katz made the motion, which carried unanimously.

(10) **DISTRICT COUNCIL SESSION**

A. **Worksession - Zoning Text Amendment (ZTA) 19-07, Telecommunications Towers - Limited Use**

Participating in the discussion were Ms. Herrera, Office of Broadband Programs; Ms. Spielberg, Special Assistant, Office of the County Executive; and Ms. Ndou, Legislative Attorney.

Mr. Hucker briefly summarized the intent of ZTA 19-07. He noted that the last-minute memo with proposed amendments that was received today from the County Executive’s Office will not be taken up today to allow staff time to review and make recommendations to Councilmembers.

Mr. Riemer, Chair of the Planning, Housing and Economic Development (PHED) Committee, commented on claims about adverse health effects from non-ionizing radiation from 5G towers and noted that the issue has been extensively studied by the scientific community, including such organizations as the National Institutes of Health’s National Cancer Institute and the National Council on Radiation Protection and Measurements, refuting claims of negative health effects. Mr. Riemer also noted that more than five years have gone into efforts by multi-stakeholders groups to address and work through various issues on 5G.

Ms. Ndou provided a brief summary of the key discussion points, as contained in the staff report, and noted that two sections, that were not in the June 29 staff report, have been added to today’s staff report: pending legal cases; and a response to the County Executive’s June 29, 2021, memo.
Reviewed Mr. Riemer amendment, as contained on page 13 of the staff report, regarding the height of new poles. Supported, unanimously, Mr. Riemer’s motion to add the following language to the ZTA:

The height of a new pole, including any attached antennas and equipment, must not be taller than the height of the nearest pre-existing streetlight or utility pole:

(a) plus 6 feet when abutting a right-of-way with a paved section width of 65 feet or less; or
(b) plus 15 feet when abutting a right-of-way with a paved section width greater than 65 feet.

Reviewed Mr. Friedson’s amendment, as contained on pages 12-13 of the staff report, to avoid the proliferation of new poles. Supported, unanimously, Mr. Friedson’s motion to add the following language:

A new pole may only be constructed if there is no utility pole or streetlight pole within 150 feet of the proposed location that could be used as a pre-existing pole or replacement tower.

Mr. Glass made a motion to create a new, limited task force and appoint members within the next 2 weeks to address questions still being raised by the public and to review the impact of racial equity and social justice (RESJ) since the ZTA was introduced before RESJ impact statements were required. The task force would report back after the August recess. Mr. Katz spoke in support the motion. After discussion of the motion, Mr. Glass withdrew it, citing that there was not a majority in support of it.

Supported, unanimously, Ms. Navarro’s motion that the following language be added to the ZTA to minimize negative effects to the County’s tree canopy:

Sec. 3. Tree Loss Minimization. The County Executive must include tree loss minimization language in all franchise and license agreements signed after the effective date of ZTA 19-07. Critical damage to the root zones of trees as well as excessive pruning should be avoided in the installation of telecommunications towers, regardless of whether they are installed on a new, pre-existing, or replacement pole.

Mr. Hucker noted that an additional worksession will be scheduled for July 20, 2021, and requested that if Councilmembers have any proposed amendments, that the amendments be submitted to Council staff by July 15. Council staff will review the memo that was received today from the County Executive’s Office and provide comments and recommendations to Councilmembers tomorrow, July 14. Final action is tentatively scheduled for July 27, 2021.
(11) **Introduction of Bills:**

A. **Expedited Bill 28-21, Technical Corrections**

Introduced draft #2 of Expedited Bill 28-21, sponsored by the County Council. A public hearing is scheduled for September 14, 2021, at 1:30 P.M.

Mr. Riemer made the motion and the bill was enacted by a roll call vote:

C. **Expedited Bill 24-21, Bond Authorization - Stormwater Management**

Legislative Analyst Smith reviewed the purpose of the expedited bill, as contained in the staff report.

Enacted draft #1 of **Expedited Bill 24-21**, as introduced.

Mr. Riemer made the motion and the expedited bill was enacted by a roll call vote:

D. **Expedited Bill 25-21, Bond Authorization**

Mr. Smith reviewed the purpose of the subject expedited bill, as contained in the staff report.

Enacted draft #1 of **Expedited Bill 25-21**, as introduced.

Mr. Riemer made the motion and the expedited bill was enacted by a roll call vote:

(13) **ACTION** - Resolution to consolidate previously authorized notes for sale and issuance as a single issue

Mr. Smith stated this resolution implements Expedited Bill 25-21, Bond Authorization.

Adopted **Resolution 19-944**, to consolidate previously authorized notes for sale and issuance as a single issue.

Mr. Friedson made the motion which carried without objection.

The meeting adjourned at 3:49 P.M.

This is a correct copy of Council action.
