

January 18, 2022

Dear Montgomery County Council,

I love Montgomery County. It's been a wonderful place to live. However, the proposed vaccination requirement doesn't make sense. The vaccines don't prevent getting or spreading the virus. I have family members who received the vaccine and the booster. They got Covid and were very sick despite being vaccinated. So why limit unvaccinated persons from enjoying their natural rights?

Additionally, this proposed regulation feels like the Jim Crow laws to me. I am confident history will see this proposed regulation in that way.

Council Members, let's maintain a county that people love to live in. Maintain our natural rights as humans by opposing this regulation.

Thank you for your consideration.
