

To Whom It May Concern:

I would like to voice my opposition to the Vaccine Passports. This would disproportionately affect people of color. I believe that this policy has racist intentions. As someone who is vaccinated, I think we should continue to encourage people to get vaccinated, however mandating passports is a violation of other people's autonomy over their bodies. I expect this type of policy in places that do not have Democratic Principles such as Russia and China. We have to embrace individual freedoms, even if it is inconvenient at times.
