

Vaccine Passports? What's next, illegal immigrants voting, total ban on guns, or anything that goes against your communist wishes?

Instead of even entertaining this ridiculous nonsense, maybe the council should look at ways to reduce spending, lower taxes, ease traffic...you know the stuff that taxpayers care about!

You dimwits sit around talking about how voter ID laws are racist and are a burden on minorities, yet you want to pass a vaccine mandate that would require a photo ID. I've tried to find a softer word than hypocrite, but it is just too perfect for you socialist pigs.

Just for your information I have been going to other counties and even other states to do my shopping so I can spend my money in places that care about their citizens' rights. In fact, if this resolution passes, I am moving!!
