

Montgomery County Council:

As a fully vaccinated adult, I am strongly opposed to this resolution for the following reasons.

1. It puts an undue burden on vaccinated and unvaccinated County residents.
2. It goes far beyond what most other counties in Maryland and Virginia have proposed.
3. It could lead to discrimination by unqualified individuals.
4. There is no evidence measures like the resolution as proposed would prevent the spread of COVID-19 in heavily vaccinated populations like Montgomery County.
5. I find it highly un-American to be asked to “show my papers” when I have done nothing wrong.
